

SINCLAIR GETS TRIAL POSTPONEMENT

Insufficient Understanding Blamed For Dam Break

JURY GETS REPORT BY KEYES BOARD

San Francisco Site Not Proper Place for Such Reservoir, Experts Say

CITE WEAK FORMATION

(By United Press)
LOS ANGELES, April 4.—Col- lapse of the St. Francis dam, resulting in the loss of some 400 lives, occurred because the dam was constructed "without sufficiently thorough examination and understanding" of the foundation materials, expert geologists and engineers informed the Los Angeles coroner's jury today.

District Attorney Asa Keyes' board of experts told the jury that the dam as designed should not have been constructed at the San Francisco canyon location.

The conclusions of the board, included in a lengthy document, prepared by Edward L. Mayberry, Walter G. Clarke and Charles T. Leeds, Allan W. Sedgwick and Louis Z. Johnson, engineers and geologists, were summarized as follows:

1. "The failure of the dam was due to defective foundation material, some of which, while reasonably hard when dry, became soft and yielding when saturated with water.

2. "The defective foundation material, referred to herein as conglomerate, became softened by absorption and percolation of water from the reservoir and was by hydrostatic pressure pushed out from under the dam structure, permitting a current of water at high velocity to pass under this sector of the dam. This current, by eroding the soft foundation material, quickly extended the opening under this portion of the structure to such an extent that a part of the westerly sector of the dam collapsed through lack of support.

3. "Following failure in the westerly sector, the escaping water swirled across the down stream toe of the dam to the easterly side of the canyon, cutting away the easterly wall of the canyon below the easterly abutment, causing a slide which broke the already weakened bond between the easterly sector and the side wall of the canyon, allowing the easterly sector of the dam to collapse.

4. "A portion of the easterly

ENGLAND WILL REMOVE RUBBER RESTRICTIONS

British Mart Suffers After Announcement

Baldwin Statement Hailed As Great Victory by U. S. Congress

(By United Press)
LONDON, April 4.—Prime Minister Stanley Baldwin announced in the house of commons today that all restrictions on the export of rubber from British Malaya and Ceylon will be removed November 1.

In announcing removal of the restrictions November 1, Baldwin said the existing scheme would continue unaltered in the meantime.

The English rubber market was demoralized after Baldwin's announcement.

Spot rubber touched 21.93 cents a pound, a decrease of 4.3 cents as compared with yesterday's closing price and 4.57 cents below today's opening.

Tire Prices Probably Will Not Drop Much

WASHINGTON, April 4.—Automobile tires probably will not be much cheaper as a result of the British government's decision to remove export restrictions upon rubber from British Malaya and Ceylon, government experts told the United Press today.

The price of crude rubber per pound is approximately 27 cents, which apparently is accepted by the trade as a fair price.

Premier Baldwin's announcement that British export restrictions would be removed November 1 was interpreted by some officials here as meaning that government assistance to that sort of industry was impracticable.

Secretary of Commerce Herbert Hoover led U. S. opposition to the British rubber monopoly, which was estimated to be able to derive \$9,000,000 annually from American consumers by each addition of one cent above a fair price to the cost of crude rubber. He refused to comment on the British decision.

Announcement that Great Britain will remove restrictions upon rubber exports was received in congress today as a victory for those who have sponsored legislation to meet the British monopoly.

"It is a vindication of our position," commented Representative Newton, Minnesota, author of the

REBELS KILL FIVE IN MEXICO ATTACK

MEXICO CITY, Mexico, April 4.—Two hundred rebels attacked the town of Tequila, in the state of Jalisco, which is the rebel center, and killed five members of the local defense organization during a four-hour battle, reports from the interior said today.

The number of rebel casualties could not be determined.

Federal reinforcements were hurried to Tequila, but arrived shortly after the battle ended at 9 a. m. The federal column immediately started in pursuit of the rebels.

In another battle in the same state three federal troopers and three rebels were killed.

Three Killed By Mistake In Villa Vengeance Plot

EL PASO, Tex., April 4.—Three men were killed by mistake when what was believed to be a plot to assassinate Mexican Congressman Jesus Salas Barraza, to avenge the death of Gen. Francisco Pancho Villa, miscarried, according to dispatches to the El Paso Post today from Parral, Chihuahua.

L. A. COUNCILMEN HURT
LOS ANGELES, April 4.—Two members of the Los Angeles city council received slight injuries today when an automobile in which they were riding overturned. The injured were Frank L. Shaw and Howard W. Davis.

SMITH AND HOOVER PUSH INTO LEAD IN PRE-CONVENTION NOMINATION CONTESTS

(By United Press)
SAN FRANCISCO, April 4.—The 62-foot launch Robin, of Seattle, with a crew of seven men, still was missing today, more than 50 hours since it was separated from sister ships of a fishing fleet off the Golden Gate by Sunday night's storm.

Engine trouble developed on the Robin during the storm and prevented it from reaching San Francisco bay.

Coves north of San Francisco were visited by searching ships when they were unable to locate the boat in the open ocean.

Three Primaries and Convention Give Favorites Big Lead

(By United Press)
GOV. AL. SMITH has been pushed far into the lead in the pre-convention race for the Democratic presidential nomination by three primaries and a convention in four states Monday and Tuesday.

At the same time, Secretary of Commerce Hoover has a lead over former Gov. Frank O. Lowden in the race for the Republican nomination.

Smith won 56 votes in his home, New York state, primary yesterday; 30 in the Michigan primary Monday; 26 in the Wisconsin primary yesterday, and 12 in the Maine Democratic convention yesterday. These four states brought him 154 votes to none for any of his opponents.

Previously he had been credited with the following:

Idaho, 8; Minnesota, 24; North Dakota, 10; New Hampshire, 8; Arizona, 6; Philippines, 6; Alaska, 6; Virgin Islands, 2.

This brings the grand total of his delegates to date to 224, with 734 necessary for the nomination.

Louisiana's 20 delegates, expected to be for Smith, have been contested, but if counted would give Smith a total of 244.

Hoover picked up 33 votes in the Michigan primary. He already was credited with 85, which would make his total 118, compared with 98 obtained previously by Lowden.

COUNTY FLYING FIELD TO GET BEACON LIGHT

Erection of Steel Tower Begun Today; Wind Cone Also to Be Built

The erection of a steel tower, which will be topped with a beacon and wind cone, began today at the Orange county airport, according to Antor Derraga, of the citizens' advisory committee, who has been developing plans for the new project.

The installation as soon as possible of a field marker circle, water, gasoline and oil facilities, have been recommended by W. O. Snyder, Jr., federal airway extension superintendent, who inspected the location recently.

A copy of Snyder's official report to the government on the airport has been received by Derraga, showing the specifications of the landing field and the weather conditions there. The average wind velocity there is six and one-half miles per hour and the highest ever recorded was 40 miles per hour, according to the report.

In 1927 a total of 205 hours of light fog was observed and 103 hours of heavy fog.

The government official recommended enlarging the field to 600 acres. He commended the plans made for locating hangars in the northwest part of the area as well as schemes for lighting the field.

MRS. BOYER WILL FIGHT BABY SUIT

LANSING, Mich., April 4.—Mrs. Laura A. M. Boyer asked the Ingham court today to dismiss the suit brought by her husband, Myron L. Boyer, to expunge the birth record relating to Dode Alfred Boyer.

The certificate showed Dode as the legitimate son of Mrs. Boyer, whereas he actually was born of Edith Howarth, an unmarried housemaid at Hotel Dieu, Windsor, Ont.

Mrs. Boyer based her petition on the ground that Dr. Guy L. Kiefer, state health officer, was empowered to alter birth certificates but not to expunge them from the records.

Motives for Mrs. Boyer's attitude were not explained.

Revenge Seen As Motive In Boy's Suspected Death

LOS ANGELES, April 4.—Possibility of a revenge motive in the suspected kidnapping and murder of 9-year-old Walter Collins, missing for almost a month from his home here, was hinted by police today.

Identification of the lad's picture by Richard Strother, Glendale service station attendant, as that of a boy whose body he had reported seeing in the back seat of an automobile, led police to believe Walter is dead.

The missing boy's father, Walter J. S. Collins, is an inmate of Folsom prison, according to police, and they fear that former prison mates have abducted the child in a revenge plot for some real or fancied wrong.

REQUEST FOR 500 DEPUTIES TO STAND GUARD AT CHICAGO PRIMARY REFUSED

WASHINGTON, April 4.—Attorney General Sargent refused today to grant the request of the U. S. marshal in Chicago to swear in 500 deputies to maintain order at the primary election, April 10.

The U. S. government appeared through a confusion of bombings, assassinations and threats today to forecast almost certain federal intervention in Chicago's political primary war.

There seemed little doubt but that the instructions given the April federal grand jury by Judge James H. Wilkerson applied directly to the government's right to take steps to insure free exercise of citizenship at the primary polls next Tuesday.

Judge Wilkerson explained to the grand jury his reason for the lengthy instructions.

"The U. S. attorney, George E. Q. Johnson, has informed me there are certain matters which are to be brought to your attention," he said, "and in light of that information I wish to charge you specifically with references to certain matters."

The court cited statutes by which the grand jury is empowered to indict persons who attack or threaten the person or property of a U. S. officer, those who interfere with or threaten persons exercising their rights to vote or those who corrupt witnesses in any legal proceeding.

Corporation Tax Cut Voted By Committee

Senate Finance Body Seeks Slash from 13 1/2 to 12 Per Cent

BY KENNETH CRAWFORD
(United Press Staff Correspondent)
WASHINGTON, April 4.—Reduction of the corporation tax from 13 1/2 to 12 per cent was voted today by the senate finance committee, which is considering the \$289,000,000 house tax reduction bill.

The house bill provides for reduction to 11 1/2 per cent. The finance committee decided this should be raised to 12 per cent in the light of recommendations presented yesterday by the treasury department.

Bourbons For Bigger Cut

Democratic members of the committee favored reduction to 11 per cent, but were forced to accept the higher figure.

A motion by Senator Barkley, Democrat, for reduction to 11 per cent was defeated, 11 to 9, by a strictly party vote. Another by Senator Simmons, Democrat, North Carolina, proposing reduction to 11 1/2 per cent, was defeated similarly.

Senator Edge, Republican, New Jersey, made the motion for reduction to 12 per cent, which was adopted 13 to 6.

Chairman Smoot said the committee was unanimously in favor of tax reduction at this session of congress, but it refused to go on record favoring any particular total.

RESERVOIR SITE INDORSED FOR ATHLETIC FIELD

Promotion of Olive Street Location Is Urged by County Builders

Reservation by the city of the old Olive street reservoir site for an athletic field was indorsed by the Orange County Builders' exchange at its meeting last night in the American Legion hall.

Charles F. Carlson, J. W. Markel and N. J. Huelkamp were named as a committee to co-operate with committees from other organizations of the city to urge action by the council in promotion of the site for purposes indicated.

Appointment of the committee was authorized after William Tway, president of the exchange, and W. J. Kelly, member of the city council, had presented the possibilities of the old reservoir site as an amphitheater and ground for the holding of big athletic contests.

90 Attend Dinner

The meeting of the exchange was out of the ordinary, for it was one of the rare occasions when wives and sweethearts were permitted to "sit in" and listen to the men "do their stuff."

Approximately 90 persons enjoyed the Virginia baked ham dinner served by the auxiliary of the American Legion post.

Only necessary business matters were given attention, however, and these included nominations for the board of directors, with the election to be held at the May meeting of the organization. Nominations by a committee and from the floor resulted in T. R. Alumbaugh, C. M. Gilbert, Allison Honer, W. J. Kelly, N. E. Lentz, R. C. McMillan, A. E. Noe, S. C.

L. A. MAN KILLED BY HIT-RUN MOTORIST

LOS ANGELES, April 4.—Struck by an automobile driven rapidly across a street intersection, M. A. Peterson, 2007 Ocean View avenue, was killed today. Shortly after the accident Charles Crawford, district manager for a safety razor company, was arrested.

Crawford, according to police, admitted he had been in an accident. He was taken to a hospital for a sobriety examination.

The victim of the accident was on his way to work when struck by the machine. His body was carried 60 feet.

The driver of the death car swerved and turned the machine up an alley, but the license number was remembered by witnesses, who gave it to police.

MAN CHARGED WITH SLAYING CHILDREN

DURHAM, N. C., April 4.—Ray Robertson, saw mill worker, was arrested here today charged with murdering his three children with an ax.

Robertson was said by police to have hacked to death Cecil, 12; Lois, 9, and Joseph, 4, following a quarrel with his wife.

The family horse also was killed and tires on an automobile cut to pieces, according to the officers.

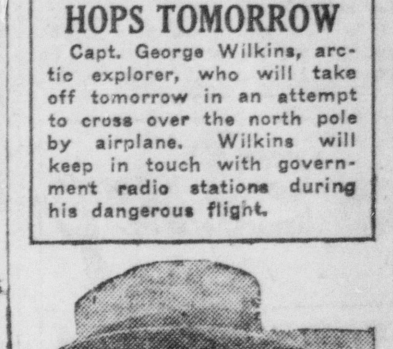

Mrs. Robertson said she fled following the quarrel.

THREE MINERS DIE IN FALL OF ROCK

VILKESBARRE, Pa., April 4.—Three miners were killed and two seriously injured by a fall of rock in the mine of the East Boston Colliery company, at Luzerne, today.

The men were trapped while clearing debris from an earlier fall.

WILKINS HOPS TOMORROW ON POLAR FLIGHT

HOPS TOMORROW
Capt. George Wilkins, arctic explorer, who will take off tomorrow in an attempt to cross over the north pole by airplane. Wilkins will keep in touch with government radio stations during his dangerous flight.

SEWARD, Alaska, April 4.—Capt. George Wilkins hastened preparations at Point Barrow today for his flight across the north pole to Spitzbergen, Norway.

Wilkins advised the army radio station here last night that the weather was moderating at Point Barrow, on the shore of the Arctic ocean, and that he expected to take off at 6 a. m., Thursday.

Reports from the far northern sections of Alaska today indicated the barometer again was falling and a change in the weather may force Wilkins to delay his departure.

Capt. Wilkins will be accompanied on the flight by Lt. Ben Eielson. They will fly a Lockheed Vega monoplane.

To Operate Radio

If conditions are favorable, Wilkins expects to make two stops on the great ice sheet of the polar region while on his way to Norway. After a brief stay at Spitzbergen, Wilkins plans to go on to London by plane, he advised government radio men here.

From London he will ship his plane back to the United States and proceed to Los Angeles, where he will attempt to make arrangements.

NYE RESOLUTION MEETS OPPOSITION

WASHINGTON, April 4.—Vigorous opposition appeared in the senate foreign relations committee today to the Nye resolution, proposing that the United States shall not use armed force to protect American investments in foreign countries.

The debate indicated the resolution would be shelved, although no formal action was taken.

Two Killed, Four Hurt When Suitor Touches Off Bomb

WHEELING, W. Va., April 4.—A hand-made bomb killed a disgruntled lover and a 13-year-old girl, injured four other persons and wrecked the home of Mrs. Katie Karp, 42, at McMechen, in the hills near here last night, police learned today.

The bomb was made by John Sebert, 50, who threatened to blow up the Karp house if Mrs. Karp persisted in returning to her estranged husband in Wellsburg, W. Va., police were advised.

Sebert was badly mangled. Karp's daughter was killed outright and Mrs. Karp, Joe Makoski, 50, his wife and Donald Butler, 17, were taken to hospitals in a serious condition.

U. S. TO KEEP HANDS OFF IN OIL BATTLE

WASHINGTON, April 4.—The United States will continue to follow a "hands off" policy with respect to the world-wide oil war being waged between American oil companies and the British controlled Royal Dutch Shell interest, Secretary of State Kellogg said today.

The United States will intervene in behalf of American companies, Kellogg said, only in cases where it appears that foreign countries are discriminating against their interests.

NEW EARTHQUAKE FELT AT CAVAZZO

UDINE, Italy, April 4.—The strongest earthquake of the week was felt today in Cavazzo and Versegna, in the region where 19 persons have been killed and millions of dollars damage has been done recently by tremors.

Today's shock was preceded by rumblings throughout the night which terrified the population.

FRAUD CASE IS PUT OVER TO MONDAY

Lawyers Claim They Have Had No Time to Prepare Without Fall Deposition

OIL MAN IMPERTURBABLE

Statement's Transcription Will Take Week, Court Is Assured by Attorneys

By HERBERT LITTLE
(United Press Staff Correspondent)
WASHINGTON, April 4.—Trial of Harry F. Sinclair on a charge of conspiring to defraud Dome oil field lease was put over to Monday by Justice Jennings Bailey, in District of Columbia supreme court, today.

Sinclair's attorneys told the court they had not had time to prepare their case for trial in view of the deposition taken at El Paso from former Secretary of Interior Fall, former co-defendant in this case.

Sinclair Lawyer Returns

This deposition was taken by Daniel Thew Wright, Sinclair lawyer, who returned today just as court convened.

The full deposition will not be transcribed for a week or 10 days, however, attorneys said.

Sinclair, imperturbable as usual, was in court early with his staff of lawyers.

Martin W. Littleton, whose retainer from Sinclair counsel has been suggested by Senator Thomas J. Walsh, also was present. His friends said he would continue to head Sinclair's defense.

Pomerene Delayed By Wreck

Owen J. Roberts, chief prosecution counsel, told the court that his colleague, former Senator Atlee Pomerene, of Ohio, who is returning from El Paso, where he crossed examined Fall, had been delayed by a freight train wreck.

Selection of a jury will start Monday.

Hays Will Be Invited Before Committee Again

WASHINGTON, April 4.—The senate Teapot Dome committee will invite Will Hays, former chairman of the Republican national committee, to testify again, when he returns from Europe, in answer to evidence which has accumulated in his absence, Senator Walsh, of Montana, announces today.

Hays will be invited to tell the purpose of his visit to Senator Lenroot, chairman of the Teapot Dome committee, in 1924, when the committee was attempting to ascertain where former Secretary of

FOUNDATION OF DAM IS BLAMED FOR COLLAPSE

(Continued From Page 1)

sector of the dam fell and now lies upstream from the original position of this sector, indicating that this portion failed after the water level had dropped enough to materially relieve the pressure from the upstream face.

"The top of the central sector of the dam now standing is approximately seven-tenths of a foot down stream from its original position. The present angle of the upstream face indicates that, in addition to moving down stream, this sector of the dam has rotated a slight degree, carrying the westward slide to the south-east.

"Examination of the foundation material, supporting the sector of the dam now standing, shows a fracture in the schist upon which this sector rests, indicating that the break which permitted the down

stream movement, occurred in the foundation materials and not in the concrete of which the dam was constructed.

"The condition of the foundation under the central sector and the foundation materials now attached to blocks of concrete carried down stream indicate that the bond between the concrete and the foundation was stronger than the cohesion of the cleavage planes of the foundation materials.

Water Level Dropped

"The record made by the automatic recording gauge installed on the central sector of the dam shows that for the period from midnight on March 11, to 11:30 p. m., on March 12, 1928, the water level in the reservoir dropped five hundredths of a foot. The bureau of water works and supply reports that water was not drawn from the reservoir during this period. This change in water level amounts to 1,335,114 feet, which passed out of the reservoir during 23 1/2 hours, or at the rate of 12.9 cubic feet per second. (Corrected for evaporation.)

"The gauge records shows that the drop of water level to the reservoir from 5 p. m., March 12, to 11:30 p. m., March 12, was 35 thousandths of a foot, or 934,580 cubic feet during three and a half hours, or at the rate of 74 cubic feet per second.

"The gauge indicates that the collapse of the dam occurred between 11:30 and 11:50 p. m. The

movement of the gauge after 11:30 is so rapid that it cannot be accepted as an indication of the water level in the lake, but merely as an indication of the water level at the face of the dam.

Insufficient Examination

"It is the conclusion of this board that the dam was constructed without a sufficiently thorough examination and understanding of the foundation material upon which the dam was constructed.

"It is the conclusion of this board that failure of the dam was due to the incompetent geological formations upon which the dam was constructed.

"It is the conclusion of this board that the dam, as designed, should not have been constructed at this location.

"It is the conclusion of this board that due to local conditions it is not economically feasible to erect a safe dam at this location."

The engineers and geologists concluded their report with a series of recommendations, urging that all dams within the Los Angeles district be examined by geologists and engineers, and that any dams found defective in any way be corrected.

State Supervision Urged

A further recommendation was made that supervision of all dams should be exercised by the state under a permit system.

The report was read to the jury by Edward L. Mayberry, chairman of the investigators. When he concluded, motion pictures and "stills" were thrown on the wall of the inquest room, graphically portraying the various features of the report.

The recommendations of the board included:

1. "That all dams within the Los Angeles district be examined and reported on by a competent board of engineers and geologists.

2. "That any dam or dams found to be defective in any way be corrected in accord with recommendations of the board.

3. "That the state legislature be petitioned to enact legislation which will require a state permit for the construction of any dam or the impounding of any water within the state of California.

State Board Recommended

4. "That the governor be implored to appoint a board, composed of properly qualified engineers and geologists, to in the future pass upon the design, foundation, conditions and construction of all dams constructed within the state of California and that no permit for the construction of any dam be issued unless the design, foundation and conditions be approved by this board.

5. "That the board be required to employ a competent superintendent to supervise the work at all times during the construction, to see that the construction proceedings are in accord with the design and conditions approved by the board.

6. "That the board appointed by the governor receive compensation only for the specific project on which it is called to pass judgment.

Applicant Would Pay

7. "That an applicant for a permit to construct a dam be called upon to pay into the state treasury a sum sufficient to compensate the members of the board and superintendent or superintendents of construction for their services and expenses incurred in their connection therewith.

8. "That the board and superintendent or superintendents of construction draw their compensation from the state treasury.

9. "That federal, state, county or city employees drawing regular salaries from these divisions shall not be eligible for appointment on this board."

Water Board Approves Reconstruction Program

LOS ANGELES, April 4.—The Los Angeles board of water and power commissioners was on record today favoring a program of reconstruction in the St. Francis dam disaster area, which included four major steps.

The program outlined in a series of resolutions included a recommendation that the city council immediately adopt an ordinance to permit making of short term loans for reparation funds; immediate

Backing Promised

A number of capitalists of California have promised financial backing for an Antarctic flight if the north pole venture is successful, according to Wilkins.

On the flight from Point Barrow to Spitzbergen, Wilkins will traverse a slightly different course from that taken by the dirigible Norge, when Captain Amundsen and his party crossed from Spitzbergen to Nome.

He will attempt exploration of a considerable area of the "blind spot" of the Arctic region to determine whether there is land in the section as yet unexplored.

Wilkins' plane is equipped with a radio station sending on a wave length of 33.1 meters. The call letters are KJZ.

New York Rubber Market Demoralized

NEW YORK, April 4.—Removal of the rubber restrictions in London demoralized the rubber market here today. Prices opened off two cents and then dropped five cents, to record lows. Transactions broke all records for the first hour, totaling 1439 lots of two and one-half tons each.

Many traders believed the Baldwin statement was the opening of a price war—an endeavor by the British to force the Dutch into some sort of co-operative agreement.

Banks have indicated a willingness to make short term loans to the city in the emergency.

AL SMITH AND HOOVER LEAD THEIR RIVALS

(Continued From Page 1)

New York's 90 Republican delegates will go unopposed, but under the leadership of Charles D. Hilles, who favors renomination of President Coolidge.

The Wisconsin Republican race was too close today for final decision, but Senator George W. Norris, of Nebraska, as the La Follette candidate, was favored.

Farm Bok Threatened If Hoover Is Nominated

DES MOINES, April 4.—The corn belt committee, representing farm organizations of 12 states, served notice upon leaders of the Republican party here last night that if Herbert Hoover is nominated for president the farmers of the corn belt committee, representing farm in their determination to consign him to private life for all time to come.

The committee, meeting to consider its policy toward a modified farm relief bill, warned in a resolution it would protest Hoover's nomination as an "affront to the farmers of the nation."

"Speaking for more than a million organized farmers, reaching from Indiana to Montana," the resolution read, "the corn belt committee hereby serves notice upon Republican leaders that if by any chance Herbert Hoover should be nominated for president, the corn belt states will be found solidly against him."

Balance of Power

"The farm vote easily constitutes the balance of power in such states as Indiana, Illinois, Missouri, Iowa, Minnesota, Nebraska and the northwest. Remembering the perfidy of Hoover to the farmer during the World war and his sinister relentless attitude toward farm relief legislation during the Harding and Coolidge administrations, nothing is more certain than, in event of nomination, farmers of the above states will utterly ignore party lines in their determination to consign this man to private life for all time to come."

A second resolution was directed to leaders of both parties, saying the corn belt farmers would "look with disfavor upon any candidate whose past actions brand him as unsympathetic toward the inequality under which the farmer has labored for seven years."

Smith Practically Assured Of Badger Votes

MADISON, Wis., April 4.—Incomplete returns in Wisconsin's preferential primary today practically assured Gov. Al Smith, of New York, the state's 26 delegate votes at the national Democratic convention, but left in considerable doubt the outcome of the Republican vote, divided between delegate slates of regular Republicans and La Follette Progressives. Returns from more than 1000 of the state's 2746 precincts remained uncounted.

Reed Has Heavy Lead

Senator James A. Reed was the only Democratic candidate entered for the direct preferential vote and he held a heavy lead over Governor Smith and Senator Thomas J. Walsh, of Montana, whose names had been written in on the preferential ballot.

However, Reed was not supported by a pledged delegate slate and Smith was conceded the votes of the delegates pledged to him.

The delegate slate pledged to Senator Walsh was far in the rear. Senator George W. Norris, the only Republican candidate on the preferential ballot, was given 20-146 votes in 680 precincts and held a heavy lead over Herbert Hoover, Charles G. Dawes and Frank O. Lowden, whose names were written in. Hoover received 3146 votes, Dawes 915 and Lowden 640.

However, the regular Republican slate of delegates, considered as supporters of Hoover, showed surprising strength against the Norris-pledged La Follette progressive candidates.

Senator Robert M. La Follette, who, with Senator John J. Blaine, headed the Progressive slate, led Walter Kohler, regular Republican leader, by a vote of 35,286 to 35,057.

Senator Blaine ran behind the conservative candidate, George J. Weigle, but seemed assured of a place among the four delegates-at-large.

SINCLAIR GAINS POSTPONEMENT IN FRAUD TRIAL

(Continued From Page 1)

Interior Fall obtained sudden wealth, Walsh said. Lenroot has testified that Hays came to see him here and asked him what the committee desired to learn from Fall. Lenroot asked both he and Hays agreed Fall should be required to testify.

Hays will be asked to comment also, if he desires, on statements of former Senator Alva Adams, of Colorado, that Hays invited a subsequent chairman of the committee, the late Senator Ladd, to take an automobile ride around Washington to discuss the case. Adams charged in statements to newspapermen that Hays was attempting to influence the investigators. Adams' statements were corroborated, in part, by A. H. MacArthur, former secretary to Ladd and now secretary to Chairman Nye, of the investigating committee.

Walsh does not believe the evidence and reports warrant subpoenaing Hays, but an opportunity will be granted him to tell his side.

The committee intends to delay hearings wherever possible until after the Sinclair trial for fear it might be accused of an attempt to influence the trial.

SEEKS \$22,275 DAMAGES FROM POLICE CHIEF

Chief of Police J. S. Martin of Anaheim is the defendant in a suit for \$22,275 damages filed by Henry Bradley in San Francisco yesterday, Bradley alleging that he was falsely arrested and kept in jail for two days on bad check charges, after Martin had telegraphed instructions to the San Francisco police.

Chief Martin declared today that he sent instructions for Bradley's arrest after he had been given his name and address by an Anaheim business man. It developed, Martin said, that the bad checks were passed by a man using the name of Henry Bradley. The Henry Bradley who passed the checks finally was arrested in San Bernardino and now is serving a prison sentence, Martin said.

Martin declared that he does not believe that the San Francisco man has any grounds for suing him, pointing out that the information was given him by a substantial business man, who had Bradley's name and address. After the mistake was discovered the San Francisco man was released at once, Martin said.

The Ruth Spere Kiddie Revue will be staged tonight, tomorrow and Friday at the West Coast Walker theater when 40 pupils of the Ruth Spere School of Dancing will appear on the stage. The majority of these artist children have appeared in the Los Angeles theaters. An entire change of program will be given at each performance. Miss Spere has located her dancing school in the Sears-Robuck building.

Special work in the entertainment degree will be given at the meeting of Santa Ana Lodge No. 236 I. O. O. F. in Oddfellow hall tomorrow evening.

H. E. Axup, candidate for the Anaheim city council, resigned today to "simplify the election." Axup was running on an independent ticket. The others in the race are A. Curtis Case and L. E. Miller, incumbents, and G. W. Burns and J. Lakeman, who are running in opposition to Case and Miller.

A branch of the Mexican Federation of Labor of Los Angeles, has been organized here and the local branch has opened an office at 113 North French street to supply any kind of help to Santa Ana and its vicinity.

Woman golfers of Santa Ana Country club will play tomorrow on the clubhouse course, for the Lorenz cup. They will tee off at 10 o'clock in the morning according to Mrs. John L. Wheeler, chairman of the committee. The Lorenz cup must be won three times for permanent possession, and has already been won twice by Mrs. Charles V. Doty.

Catering to the women who like trim and attractive wash dresses for house wear, Mrs. J. C. Schmidt has opened the Green Gables Frock shop, at her home, 2055 North Main street, according to artistic cards sent out today to the women of the city.

Four new members were taken into the 20-30 club at its dinner meeting held last night at Ketter's. They were Will Homan, Kermit Cling, Dick Ewert and Wayne Lauderbach. Following the brief business meeting two interesting talks were made by Clifford Conklin and Dr. Robert Currie.

George Benedict, gardener at the courthouse tomorrow will cut back the poinsettia plants and as has been the custom for several years people desiring cuttings from these mammoth plants may have them by calling at the court house any time tomorrow.

Goes To L. A. To Identify 3 Men

Deputy Sheriffs left here today with George Robertson, garage man, who operates a garage at Stanton avenue and Lincoln boulevard, for Los Angeles, where Robertson will attempt to identify three prisoners as the men who held him up just before Christmas, last year, stealing \$100.

The three men arrested are alleged to have confessed to staging a holdup in Orange county and are believed by officers to be the three who robbed Robertson, after binding and gagging him.

After the holdup, Robertson was kidnapped and taken several miles from his place of business where he was dumped out of the machine the bandits were using.

TWO RELEASED FROM JAIL ON COURT ORDERS

After a 30 day stay in the county jail, for contributing to the delinquency of minors on a liquor party, Irvin Jemison and C. L. Taylor were released today on an order from Superior Judge James L. Allen.

Both men are married and each has two children. According to reports, the families have been suffering from financial difficulties resulting from the incarceration.

Mrs. Jemison, afflicted with tuberculosis, has been sent to a sanitarium at Duarte, California to recover, according to reports. A doctor's certificate, attesting that her condition is serious, was examined by Judge Allen before he ordered the release of Jemison.

He and Taylor still are on probation under the surveillance of the court. They were given nine months jail terms as a condition of their probation grant when they came up for sentence.

Court Notes

\$10,000 Judgment
Charles G. and Charles R. Willis, contractors, had won a \$10,604.12 judgment against William Simpson and H. R. Erdman today in a case in which the defendants were accused of failure to pay their bills as subcontractors. The plaintiffs were contractors on a state highway construction project, the complaint stated, and after the asserted failure of the defendants to pay their materials bills, the plaintiffs secured the claims against them and brought suit.

Desertion Charged
Alleging that her husband deserted her in 1927, Mrs. Fern E. Covell started action for a divorce today against William R. Covell. They were married in 1923.

Files Petition
Arendina Melick filed a petition for letters of administration in the estate of Walter L. Melick, today. The document states that the deceased left property valued at \$8000.

Letters Asked
A \$21,000 estate had been accumulated by Alpheus W. McCollum, who died January 13, a petition for letters of administration stated today. The estate includes a 20-acre ranch. Thomas McCollum, Orange, and Robert F. McCollum, Santa Ana, sons of the deceased, are named in the petition.

Damages Sought
Asking \$2000 damages and \$600 which it is alleged the plaintiffs have been deprived of in rent, George W. Isaacs and Retah J. Isaacs brought suit today against Annie Brooks for illegal detention of property. They claim that the defendant entered the premises February 24, claiming an interest in the land. The plaintiffs ask to be declared legal owners of the property.

The Public Forum

Communications under this heading must be signed by the name of the writer. These communications express the opinions of the writers of them. The opinions may or may not be the opinions of The Register.

Editor Register:

The mountain hath labored and brought forth a mouse. In other words the widely heralded city manager system that was to revolutionize municipal matters for Santa Ana and make at least two dollars grow where only about four-bits grew before has proven a veritable dud, and the futile effort of the city council to lift its collective self up by the slack of its breeches probably will be abandoned and Spurlos Veresent written as its epitaph.

For the recently appointed manager, probably the best business man locally available, has thrown up the sponge and handed in his resignation and report has it that the council is in a quandary whether to appoint his successor or to go back to the original system of having each municipal department supervised by a separate head.

Not that a dearth of material in the way of aspirants for the place confronts the city council for several Orange county cities are reported to have already signified their willingness to come to Santa Ana's relief and furnish the wisdom of Solomon, and financial ability of Harriman, the meekness of Moses, and the ability of Jack Dempsey to "take it" in case hard knocks come his way.

The job has so far paid \$500 a month and that is no L.A. salary for what seems a snap. Fullerton in particular offers one of her citizens and one from Orange is also in the race while Santa Ana herself might recruit a round dozen chiefly from the local chamber of commerce and other uplift organizations.

It is altogether possible, however, that the council will be satisfied with its initial plunge into frenzied finance and will again take up the white man's burden and supervise the distribution of the taxpayers' money by direct action.

Anyway the matter will be the subject of earnest discussion until it is finally settled in some manner as the taxpayers are beginning to wonder whether or not they have any rights and whether or not they will be allowed to insist upon using them.

CLEANUP DRIVE SUGGESTED AS ANNUAL AFFAIR

Ridley Smith, chairman of the Santa Ana beautification campaign sponsored by the Junior Chamber of Commerce, announced today that the affair is meeting with hearty approval throughout the city and that many requests have come to him suggesting that the project be made an annual affair.

Clyde Downing, president of the senior Chamber of Commerce, issued the following statement today showing that this organization is behind the movement:

"The Chamber of Commerce has always been a supporter of the clean-up and paint-up campaign for these reasons:

"1. The reduction of fire losses.
"2. The additional value of property as a result of improving the neighborhood.

"3. The increased business that comes to merchants when people start fixing their premises.

"4. The improvement in sanitary conditions is bound to attract prospective factory builders and other business men looking for a place to locate.

"5. A clean-up campaign may start civic consciousness to functioning so that city officials can get public support for bond issues for special improvements, particularly parks and playgrounds.

"Let us make the clean-up campaign last for 52 weeks—365 days—\$760 hours—525,600 minutes—the whole year through!"

According to Smith, indications are seen on every hand to prove that Santa Ana is making the clean-up movement a real community project. An increased demand for shrubbery, plants and trees has been reported. The committee has emphasized the value of trees in beautifying a city and has urged that they be planted wherever possible.

Santa Ana, Calif.

Gentlemen

With reference to your inquiry as to the degree of satisfaction I am receiving from my STEINITE ELECTRIC RADIO, wish to advise that I consider it by far the finest I have ever had; and this is in face of the fact that my former set cost me considerably more.

The set is very selective, has plenty of volume on both local and DX reception, and in tone quality is superior, I think, to any other make of radio. As you know I have received two Australian stations and about everything in the United States, Canada and Mexico.

Your service and inspection plan, in my opinion, go a long way towards insuring the set owner perfect reception at all times, and I can only say that both the STEINITE and the SERVICE and treatment received from your company are all that can be desired.

Yours very truly,

(Signed) Chas. Cathcart,

MESA CHAMBER IS NEUTRAL IN ANNEXING MOVE

At the regular meeting of the Costa Mesa Chamber of Commerce on March 30 the following resolution was adopted, and a motion duly carried that a copy of the resolution be forwarded to The Santa Ana Register with the request for its publication:

"Whereas, a certain amount of misapprehension has arisen in and about Costa Mesa as to the position of the Costa Mesa Chamber of Commerce on the question of the annexation of Costa Mesa to the city of Santa Ana, and whereas it is and always has been the aim and desire of the Costa Mesa Chamber of Commerce to represent the wishes of all of its members directly and the people of Costa Mesa community, therefore, be it resolved that this organization go on record as neither favoring nor opposing annexation of Costa Mesa to Santa Ana, and as observing a position of complete neutrality in the matter. And be it further resolved that this organization also go on record as completely disavowing any connection, either with the efforts of those favoring annexation or of those opposing annexation, and as stating also that the action of any person or persons in securing and filing petitions with the authorities in Santa Ana for the purpose of having an election on the question of annexation, or the action of any person or persons in the securing of petitions opposing such annexation, have been wholly without authority from this body, and entered into entirely by those persons as individuals, and without any sanction of any sort from the Costa Mesa Chamber of Commerce."

RANKIN EASTER PROGRAM WILL BE ON FRIDAY

In accordance with an established custom, Easter will be celebrated at the Rankin store, by a special program of Easter music to be presented by the Rankin Chorus on Friday morning at 8 o'clock.

Mrs. Charles E. Hurd directs the chorus, and has arranged an interesting program to open with the hymn, "Christ is Risen," followed by the chorus number, "Easter Bells." Bruce Switzer, store superintendent, will introduce the speaker, the Rev. George E. Burlingame, acting pastor of the First Baptist church, whose seasonal message will be followed by a duet by Mrs. F. W. Slabaugh and James H. Hughes.

Added variety will be given by the reading, "There is No Death," by Miss Neva Mizar, after which the Chorus will sing "Alleluiah." The hymn, "In the Cross of Christ I Glory," will be the final musical number, the program closing with the benediction.

Like all previous Rankin Chorus programs at Easter or Christmas time, that of Friday morning will be open to the public.

IN MEMORIAM

Teressa A. Blee was born in Jerseytown, Penn., April 30, 1844. She moved with her family to Paw Paw, Ill., in 1854, where she later met Wilson Cullen Bryant, a cousin of the poet William Cullen Bryant, and they were married on March 12, 1872. Mr. and Mrs. Bryant made their first visit to California in 1882, and after a prolonged stay here returned to their eastern home.

A second trip to California decided them to make their permanent home here, and in 1893 they returned from Illinois to Santa Ana and bought a place on Cypress avenue, where Mr. Bryant passed away in August, 1918.

On April 2, Mrs. Bryant slipped away from the sunny land she loved so well and the friends who loved her, to keep her birthday in the "Fields of Asphodel," where her nearest and dearest were waiting to welcome her to the shining shores of her eternal home.

She united with the Presbyterian church at the age of 18 years, and thereafter lived a consistent, faithful Christian life, loyal to her church in every way, serene, untroubled, steadfast in her religious belief, her faith shone undimmed until the end and illumined the dark pathway as her feet went down into the "Valley of the Shadow."

Mrs. Bryant was a quiet, unassuming, lovable gentlewoman of the old regime, always loyal to her friends and neighbors and thoughtful of their welfare. She was singularly youthful in spirit and sympathetic in understanding with the

young people of her acquaintance, to were all her friends. This afternoon this good woman, friend and neighbor was to be laid to rest among the flowers, and we shall miss her gentle presence from the ways of life which shall know no more.

Cotton Planned For Nevada Land

TONOPAH, Nev., April 4.—Nye county will soon have a crop of cotton to add to its resources, according to an announcement made by T. W. McDewitt, recently appointed receiver for the well known Pahump ranch.

Seventy acres of land is to be improved and planted in cotton as a test of growing conditions in this section, and if results are satisfactory, a large acreage will be cultivated.

The Pahump ranch has been the subject for much litigation for the past 10 years, a condition which is said to have prevented development of its rich and well watered acreage.

We Really Ought To Save More!

But how are we going to do it, query Worried Husbands and Anxious Wives? Rent is a pretty fixed charge, and heat, laundry, clothes and food cost just so much. There really is only one way—save FIRST and then buy what you must have for as little as possible.

While we can't offer you a "quick cure" for all your money troubles, may we suggest that when you pay cash you can't spend more than you have. Cash also means a substantial saving on the things you must buy.

"Quality—always at a saving" will mean more than our store slogan if you'll try our plan. It will mean a bank balance at the end of the year, and a fewer wrinkles right away.

10 MURDERERS
FACE GALLOWES
IN CALIFORNIA

By HOMER L. ROBERTS
(United Press Staff Correspondent)
SACRAMENTO, Calif., April 4.—Ten condemned murderers now face death on the gallows in California—the greatest number at one time in recent years—according to Keith Carlin, executive secretary to Governor C. C. Young.

This state, furthermore, will witness two double hangings next month, a rare occurrence at either state prison. Since 1893 there have been only seven double hangings in the state.

Until the supreme court gave a new lease of life to William Edward Hickman of Los Angeles, slayer of Marion Parker, there were to have been three double hangings.

Hickman was scheduled to be executed on the same day as Edgar Lapierre, on April 29. Lapierre, slayer of an Oakland police officer, must now walk to his fate alone.

Each state prison will stage an execution May 4. At this time John Joseph Malone, Los Angeles murderer, is to be hanged at San Quentin prison, and Willard D. Shannon, Stockton, slayer of Harold Lage, is to die at Folsom prison.

The second double hanging is booked at San Quentin May 11, for Lonnie Johnson, Merced county man who murdered his common-law wife, and Clarence "Buck" Kelly, San Francisco "terror bandit" who killed a policeman.

Besides Hickman, two other convicted murderers are planning their hopes of escaping the gallows upon the supreme court. Carlin said. They are Joseph Troche, Sacramento youth who shot his sweetheart to death in an automobile and attempted suicide, and Mark Dowell, San Francisco slayer.

Odd Cornell, Bakersfield eccentric sentenced to the gallows, is now in the state insane hospital at Mendocino. Should he ever recover from his insanity, it is problematical whether the state could carry out the death penalty. If he is never cured, he is doomed to spend his remaining days in the asylum.

Only one murderer in the last year has fought against the noose through the supreme court, and won. He is Philip Goodwin, Santa Ana priest, awarded a new trial by the high tribunal.

TALBERT

TALBERT, April 4.—Two local groups of Talbert young people are this week enjoying vacation outings. The Camp Fire girls, which organization is composed of the members of the seventh and eighth grade girls of the Fountain Valley school, have been camping near the county park since Saturday, nine of the girls, their guardian, Miss Blanche Helm, and her sister, Miss Kate Helm, chaperoning the party.

Monday morning the Rev. J. J. Woodson, local Scoutmaster, and 26 of his Boy Scouts left with camp equipment for Trabuco canyon, making the trip in six machines.

A group from Talbert church went to the county hospital Sunday afternoon and held services at the chapel. The sermon was delivered by the local pastor, the Rev. J. J. Woodson, while Louie and Juanita Penrod, Rose and Violet Rogers gave several vocal selections.

Sunday evening, the local pulpit was occupied by the Rev. Mr. Haggar, of Long Beach.

Announcement was made of completed plans for Easter Sunday services. The league plans a sunrise service at Orange County park to be held on reservoir hill, as was done last Easter and breakfast in the park will follow. A short Easter program is planned by the Sunday school and services will be held following league in the evening, at the usual hour of 7:30 o'clock.

The Rev. J. Ban, local Japanese pastor, who is in Japan, will not return until the last of May according to a letter just received by his family, as he is busy settling the estate of a brother.

Robert Harper, local merchant, has installed folding doors on his open front store and has added outside screens.

Mr. and Mrs. S. E. Talbert and Mrs. Talbert's mother, Mrs. M. L. Thurman, motored to Long Beach Sunday and visited Mr. Talbert's mother and Mrs. F. Sanders, an old friend, who on Tuesday was celebrating her 83rd anniversary. Mrs. Talbert and Mrs. Sanders children were school mates when children.

Mr. and Mrs. L. J. Bushard and daughters, Miss Fay Bushard and Louise Bushard accompanied by Mrs. Bushard's mother, Mrs. Mellie Ellis, left the first of the week for a vacation motor trip into the northern part of the state.

The Talbert drainage district has employed Fred Pope to rid the ditch banks of foliage by the means of discing. The work is being done by tractor and practically 20 miles of banks will be gone over by this means.

Miss Jennie Folkerts has been spending several days with Miss Verna Helm.

WAHLBERG ON
COMMITTEE TO
LEARN DAMAGE

Orange county will be represented by one member of the University of California's committee to appraise the agricultural damage in Ventura county from the St. Francis dam disaster, it was announced today.

H. E. Wahlberg, farm advisor of Orange county, will be a member of the committee.

The committee, appointed at the request of Governor Young, will not attempt to estimate the cash value of property destroyed.

"We will seek to determine only the property that has been damaged or destroyed, and the extent of the damage," said President W. W. Campbell of the university. "It will remain for other agencies to translate these facts into dollars and cents."

The survey is being directed by Professor B. B. Crocker, director of agricultural extension at the university, and W. R. Schoonover, citrus specialist of the extension service.

It is estimated in Ventura county that approximately 190 farms were ruined by the flood, and that approximately 10,000 acres were affected.

Other members of the university's staff who will aid in the work are J. B. Brown, irrigation specialist; L. W. Flyhart, farm management specialist; T. Francis

Hunt, associate professor of agricultural extension; W. B. Hooper, walnut specialist; V. F. Blanchard, farm advisor, and Sydney Anderson, assistant, Ventura county.

SCOUT IDOL WILL
BE HERE THURSDAY

The rally being staged in honor of National Scout Executive Daniel Beard, on Thursday evening of this week at the Santa Ana high school auditorium will be a real boy affair, according to announcement from scout headquarters today. The program will include a playlet entitled "The Making of the Scout," to be put on by Newport Troop No. 5, and will include on the list many leaders in scouting throughout the county. The Anaheim Legion Bugle and Drum corps will furnish music for the evening. L. G. Swales, chairman of the sea scout committee will present a short talk and then Daniel Beard himself will tell as many stories as he is able to.

A \$110,000 bond issue to finance the purchase of additional land already has been authorized, and another issue for \$100,000 is now under consideration.

The latter would be used mainly to build new barless dens for bears, foxes and wolves. Natural environment for the animals will be provided as far as possible, featuring by hibernating caves and shelters.

St. Louis and Denver are said to be the only cities now possessing such accommodations for animals.

One of the most unique buildings included in the new program will be a bakery, especially constructed for the preparation of special foods for the various animal classes.

WINTERSBURG

WINTERSBURG, April 4.—Mr. and Mrs. W. P. Treece were pleasantly surprised Sunday by a visit from former Bakersfield friends, Mr. and Mrs. Clyde Abbott, whom they had not met for six years. The visitors remained for the day. Mrs. Mollie Goble, of Anaheim, is spending a week with her sister, Mrs. R. L. Thiebaud, and assisting in the care of Mrs. Thiebaud's daughter, Mrs. Crenshaw, of Chandler, Ariz., who is suffering from the after effects of blood poisoning following an operation.
Mr. and Mrs. W. W. Blaylock had as Sunday visitors their son, Charles Blaylock, of Wilmington, and their son-in-law and daughter, Mr. and Mrs. Ray Lacy and daughter, Mr. and Mrs. Ray Lacy and daughter, of Long Beach.
Mrs. Harvey Raines, who spent the past week at Saugus with her son-in-law and daughter, Mr. and Mrs. A. Culver, returned home Saturday, having made the trip as

Long Beach in company with Mrs. Culver.

Mr. and Mrs. Ed King entertained Sunday, Mr. and Mrs. Morgan and two children and Mr. and Mrs. O. Bender. The visitors are of Los Angeles.

Mr. and Mrs. Elly and family spent Sunday at Orange county park.

W. W. Blaylock attended church in Santa Ana Sunday and accompanied Dr. and Mrs. U. G. Littell home in the evening.

Isabelle Russell returned Tuesday to Los Angeles after visiting since last Friday in the E. Ray Moore and W. F. Slater homes and her sister, Miss Susan Russell visited from Saturday until Monday with Miss Muriel Moore.

Mr. and Mrs. W. F. Slater and family and Isabelle Russell motorized Monday to Balboa enjoying a beach party for the day.

The cantata which the local choir is preparing for Easter service will not be held until the Sunday following Easter. On Easter Sunday morning, communion service will be held and special musical numbers by Norman Ruoff, of Los Angeles, will be rendered.

The Japanese Presbyterian church of this place is to hold an Easter program at 2:30 o'clock Easter Sunday afternoon at the local Methodist church.

The monthly report for the Wintersburg County branch library showed for the month of March that 403 books were taken out, an increase over any month during the 13 months since the library was established.

Thirty new books were added to the library this week by Miss Margaret Livingston, county librarian. Mr. and Mrs. Ray McCormack had as Sunday guests in their home Mrs. Lee Norton and her mother, Mrs. Pitcher, of Gardena, and Mr. and Mrs. George Broome, of Long Beach.

Alvin Friend, Wintersburg, 14-year-old son of Mr. and Mrs. Henry Friend, with his two brothers, Melvin Woods, of Capistrano and Leo Woods, of Los Angeles, came near drowning Sunday, when they were thrown into the ocean when the small boat from which they were fishing overturned.

One of the brothers became seasick and in attempting to change positions in the boat it is thought the boat was allowed to drift against a projecting rock, capsizing it. The men saved themselves without assistance but Alvin was in a rather serious condition for a time and the brothers carried him to the Melvin Woods home before he fully revived.

Mr. and Mrs. Frank Ulrich and daughter, Miss Cleo Ulrich, motored to Modjeska's home Sunday, spending the day.

Mr. and Mrs. Robert Jenkins entertained as Sunday guests, Mr. and Mrs. McLaughlin, of Santa Ana, and Mr. and Mrs. Johnson, of Bellflower. Mr. and Mrs. Johnson, who are the grandparents of Thelma Page, who makes her home with Mr. and Mrs. Jenkins, were accompanied home by their granddaughter, who is spending the week of grammar school vacation in their home.

Miss Marguerite McCormack is spending the week of high school vacation at the home of her parents in Los Angeles.

Mr. and Mrs. Perry Hurst, of Los Angeles, have been visitors at the home of Mrs. Hurst's parents, Mr. and Mrs. W. T. Vandruff.

WESTMINSTER

WESTMINSTER, April 4.—Prayer meeting has been changed this week from Wednesday evening to Friday evening, at which time a Good Friday service will be held at 7:30 o'clock.

A Mrs. Robinson, who 35 years ago was a Westminster resident, her husband, the Rev. Mr. Robinson, having been a pastor of the local Presbyterian church at that time, was a Westminster visitor Saturday afternoon, at which time she called on a number of families who were living here when this was her home.

Mr. and Mrs. Floyd Morris motored to Venice Sunday.

Daniel Welty, who last week returned from the Anaheim sanitarium, where he spent several weeks, is gradually regaining his strength following his long illness and the past few days has been able to be

out in the sunshine for a short while each day.

Mr. and Mrs. Douglass Fairbanks, of Hammond, Ill., who are in California on a short trip, having motored through by the southern route, were Sunday visitors in the home of Mrs. Fairbank's aunt, Mrs. Addie L. Blakey. Other guests for the day were Mrs. Fairbank's son-in-law and daughter, Mr. and Mrs. Ray Wilson and two small daughters, Virginia Mary and Patty Ruth Wilson, of Los Angeles.

Mr. and Mrs. Ernest Loomis attended a dinner party in Long Beach Sunday evening at the home of Oklahoma friends, Mr. and Mrs. Growther, who entertained a party of 14 former residents of their former home town.

Friday evening, Mr. and Mrs. Loomis were the guests of friends at Compton.

Thomas Leal, dairyman, who has for the past year been located on the ranch of Mrs. Fay Weinschank Hall, east of Westminster, has leased another dairy ranch in the Alamosa district and is moving his herd there within a few days.

The county road just east of the Huntington Beach boulevard is being graded from Seventeenth street to the Grandy corner, one half mile south, preparatory to making it a 60 foot gravel road. The eucalyptus trees on the west on the property of Morris Terry and Mrs. Yaelas were recently removed.

The Quality Loaf

Why is it that Kilpatrick's Purity Bread is always the same?

Why has it become known to housewives as the "Quality Loaf?"

Because the ingredients used are always the finest and purest that money can buy.

Housewives know quality—especially in Bread. They know what is required to produce a golden brown loaf, even in texture, and rich and delicious in flavor.

And Kilpatrick's know how the particular housewife would bake her bread.

Starting with the same fine quality-ingredients that she would use—blending them in the same proportions—Kilpatrick's Purity Bread is then scientifically baked in immaculate ovens.

The result is a loaf that always fulfills the expectations of the whole family.

Housewives demand it and know it as "The Quality Loaf."

Fresh today at your grocers. Either white or Wholewheat. Ask for it.

LONDON, April 4.—A gymnast will be one of the features of the Prince of Wales' new London residence, Marlborough House, when he moves in soon.

The prince is a firm believer in the daily dozen, and the recent uncertainty of hunting, owing to bad weather and foot-and-mouth disease have driven him to other means of obtaining exercises.

His first exertions in the morning take the form of squash rackets or swimming. This is usually followed by a sprint round the spacious lawn at Buckingham Palace. For the second exercise the prince usually dons the sweater and flannels of the boxer indulging in road work, and his Cairn terrier Coda, is always there to prevent his slackening the pace.

CITY ENGINEER WARNS AGAINST WEEDS IN LOTS

Clyde Jenken, city engineer, today was preparing to mail immediately to the owners of the 1600 lots the city has had to clean in campaigns against weeds, notifying them that unless their properties are properly cleared by May 1, the street department will be obliged to do the work and charge the costs to the owners.

"It is possible for the individual property owner to have his property cleaned at less cost than the city expense for the work," the engineer said. "If allowed to go until the city forces clean it up, the owners are charged with all of the overhead, such as inspectors, foremen, posting, publishing and bookkeeping expenses."

It has been necessary each year for city forces to clean up about the same number of lots, Jenken said, but he expressed the hope that the clean-up campaign now under way would eliminate many of the lots from the list the city usually takes care of.

"With the possible exception of out-of-town owners, there is no legitimate reason why a lot owner should not have his holdings cleared by doing the work himself or hiring some one to do it," the engineer said, in explaining that carelessness on the part of the owners unnecessarily imposes an added burden on the department.

Jenken will send with the letter a list containing the names and addresses of men who have made application to him for work in weed cleaning. The list contains the names of men who will work with hoe or shovel as well as men who have team and tractor equipment for heavier work.

Pointing out that weeds shall be cut off at the surface of the ground with a hoe, or plowed under, the engineer said that city ordinance specifies that weeds must be eradicated from sidewalk reservations and parking as well as from lots.

TOO CLOSE SHAVE

DETROIT, Mich., April 4.—His wife Frank Elrod is a barber. His wife likes shampoos, massages and scalp treatments; but has no use for shaves. Nevertheless when Frank imbibed some of his hair tonic the other day he insisted on his wife having a shave. He shaved much too close for his wife's peace of mind and was copped by neighbors and police. The judge handed down a one-year job for Frank to shave prisoners at the house of correction.

INGROWN NAIL

Turns Right Out Itself

A few drops of "Outgro" in the crevice of the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost over night. "Outgro" is a harmless antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.—Adv.

NIGHT BASEBALL SEASON TO BEGIN MAY 28

"My ball club is a team of extremes. I am not worried about the players. They will get going before they start the season," Miller Huggins said while his champions were being kicked all over the Florida sands in the spring training exhibition games.

Huggins is at the same time the most conservative leader in baseball, and the most optimistic. In the same breath he will tell you that no team ever will be good enough to win five successive championships and will continue that "the boys will get going soon and they'll be in there in October."

Other managers might be in despair over the poor form the Yankees showed during the training season but Huggins is not alarmed. He acts on the theory that his athletes are old enough and have enough experience to know best how to fit themselves for the championship race.

And he is practical enough to assume that if the temptation of the rich cut of a world's series is not an inducement to the athletes to hustle there could be no improvement.

Yankee teams in the past have behaved similarly and Huggins remained so calm that almost organized efforts were made to have him replaced by a driving manager, but his teams have a way of coming through for him. Perhaps they come through for themselves but the fact remains that Huggins, nominally, at least, has been a very successful manager.

It wasn't so many years ago, after the Yankees had flopped in the pennant race, that they were pointed out as the worst team in the south. Babe Ruth was on the rampage and the camp was in a demoralized condition. Col. Jake Ruppert, owner of the club, was told that Huggins was peddling real estate and allowing the team to shift for itself. He was called

CLOSER RACE EXPECTED THIS YEAR IN AMERICAN LEAGUE; YANKEES MAY BE IN SLUMP

By GEORGE H. KIRKSEY
(United Press Staff Correspondent)

NEW YORK, April 4.—Tired of seeing the New York Yanks running away with the pennant, fans are looking forward to a close race in the American league this season. With as many as seven clubs entertaining pennant hopes in the National league, another thrilling race is in prospect in the senior circuit.

From all indications the Yankees hardly are prepared to stage their customary early dash which has caused interest to wane in the American league the past two seasons.

The Yankees have dominated their league completely for the past two years, occupying first place continuously during both seasons except for a brief week in April, 1926, when the Cleveland Indians assumed the lead only to lose it right back to the Yanks.

Last season the Yanks won the pennant by 19 games, while in 1926 they finished three games in front of the Indians after making a run-away race of it until the final month.

Another pennant may be in store for the Yanks this season, but the odds are against the New York club taking the lead on the first day of the season and holding it through to September 30.

The strength seems to be distributed more evenly in the National league than it was last season and the only club that can be counted definitely out of the race is the Phillies.

The three clubs apparently best fortified in each league are: American league—New York Yankees; Detroit Tigers; Philadelphia Athletics.

National league—Pittsburgh Pirates; Chicago Cubs; St. Louis Cardinals.

Measured by showy standards, Huggins is unfortunate in the possession of a tiny frame and a rather drab personality. In contrast with John McGraw he was a personality entirely the opposite of what New Yorkers demanded in a field leader. And even now with all his success, Huggins never is pointed out on the street or in the baseball park as the big power of his club. It is principally because he does not court publicity and he prefers his own quiet way of doing and living.

Some day Miller Huggins will be written about as a brilliant leader and it is hoped that historians will not forget to record him also as the perfect gentleman and the fine little fellow he is.

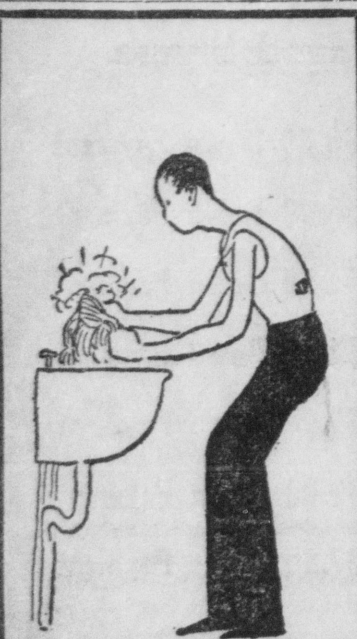

SEALS, SENATORS, SERAPHS AND STARS WIN ON OPENING DAY OF COAST LEAGUE RACE

Seidel's Market Defeats Buglers

In another Twilight league tune-up contest at Lincoln park, Seidel's market nosed out the American Legion Bugle and Drum corps yesterday, 5 to 2. The Buglers could do little with Pitcher Earl Jones who set his opposition down with five hits. Four errors handicapped Hantsberger, who twirled for the Legionnaires.

GREENEVILLE, S. C.—The New York Giants and the Washington Senators moved here today for the fifth game of their exhibition series.

CHATTANOOGA, Tenn.—The chances of Hearn and Delaney, rookie pitchers, remaining with the Boston Braves, were dependent on their showing against the Chattanooga club today.

INDIANAPOLIS—Suffering from a heavy cold, Shortstop Horace Ford of the Cincinnati Reds may not be able to play for several days.

NASHVILLE, Tenn.—Babe Ruth hit his first home run of the 1928 season in the eleventh inning yesterday against Chattanooga.

PHILADELPHIA—Ty Cobb was scheduled to appear in today's city series game between the Athletics and Phillies.

EVANSVILLE, Ind.—Wattle Holm, St. Louis Cardinal third baseman, forced out yesterday because of a sore arm, will be given a few days rest.

MONTGOMERY, Ala.—Roger Peckinpaugh has selected George Uhle to pitch the opening game of the season against the White Sox at Chicago.

DAVIS CUP PLAY TO BEGIN NEXT FRIDAY

MEXICO CITY, April 4.—Except for Robert Kinsey, an American, the Mexican Davis cup team will offer little competition to the United States tennis players in the first round of American zone play Friday.

Kinsey, brother of Howard Kinsey of San Francisco—the Kinseys were United States doubles champions in 1924—again will be a member of the Mexican team and on his shoulders apparently will rest the burden of the Mexican team. He will be supported by Ricardo Tapia and Alfonso Unda.

COAST AMATEUR KING ON DELHI CARD TONIGHT

TONIGHT'S CARD
Main Event—Hal Cox vs. Bill Williams, 168 pounds.
Semi-windup—"Red" Anderson vs. Armand Garcia, 145 pounds.
Preliminaries—A. Sport vs. Leonard Behning, 112 pounds; Horace Selph vs. Hime Rulin, 120 pounds; Al Encinas vs. Jim Doyle, 120 pounds; K. Bowers vs. Jim Long, 185 pounds.

The "associate membership" of the Amateur Athletic club, presided over by Monsieur Boyd Ellis, the well-known orator of Delhi, will investigate the championship status of the king of all Pacific slope amateur light heavyweights tonight.

Hal Cox, winner of the recent coast tournament, is booked to box Bill Williams, a handy sailor boy from one of your Uncle Sam's largest battalions, the U. S. S. California, and "Doctor" Ellis says there will be no substitution.

The big boys of the professional racket are watching this Hal Cox with admiration and, as the saying is, "it won't be long now." Cox will break into the cash and carry division before many months and competent critics say he should go far. He can hit and he can box and he is a willing, aggressive mixer.

Williams comes to Santa Ana with a reputation as a two-fisted guy who will probe the strength of the champion.

"Red" Anderson, a Huntington Park product, and Armand Garcia, the pride and joy of Young Terry's Whittier stable, clinch in the semi-spot. Ellis believes this is a real main event shot.

The usual line of preliminaries, all of them more or less attractive, open the program. The first one begins at 8:30.

and Eddie Gardner, Seattle Negro, crossed the finish in a dead heat to split the honors for the 32nd lap. Souminen was next.

Arthur Killingsworth, Loomis, Cal., Andrew Payne, Claremore, Okla., and John Salo, Passaic, N. J., finished in the order named.

Carl Swenson, Los Angeles, and C. M. Gallencoe, West Palm Beach, Fla., dropped out of the race yesterday.

The five leaders in elapsed time for the 111.7 miles from Los Angeles to Glen Rio are:

Arne Souminen, Detroit, 184:10; Olli Wanttinen, New York Finn,

GLEN RIO, N. M., April 4.—Athletics in the C. C. Pyle cross country race today left another state behind in their Los Angeles New York trek as they crossed the New Mexico border headed for Vega, Texas, 36 miles away.

The runners and walkers have passed through California, Arizona, and New Mexico in the 33 days of the race.

Arne Souminen, Detroit Finn, continued to hold first place honors in elapsed time by a comfortable margin.

THEY SETTLE ROWING TITLE NEXT FRIDAY

Lake Washington, at Seattle, is the magnet for rowing interest this week, for the annual regatta of the University of California and University of Washington will be held there Friday. California, winner last year, and with every prospect of a championship team, is full of confidence, and expects to represent the west at the Poughkeepsie classic this year. Owing to rainy weather, Al Ulbrickson, new Husky coach, isn't so cheerful about his team—but you never can tell. Above is the likely lineup of the California varsity. Left to right: Pete Donlan, stroke; Fran Frederick, Al Rylander, Jack Brinck, Billy Dally, Carl Steiner and Ted Brown, bow. Seated, Don Blessing, coxswain. Below is the Washington varsity in one of its last practice workouts.

PLYE 'BUNION DERBY' PARTICIPANTS LEAVE NEW MEXICO, HEAD FOR VEGA, TEXAS, TODAY

GLEN RIO, N. M., April 4.—Athletics in the C. C. Pyle cross country race today left another state behind in their Los Angeles New York trek as they crossed the New Mexico border headed for Vega, Texas, 36 miles away.

The runners and walkers have passed through California, Arizona, and New Mexico in the 33 days of the race.

Arne Souminen, Detroit Finn, continued to hold first place honors in elapsed time by a comfortable margin.

CINCY MANAGER BELIEVES CLUB IS CONTENDER

INDIANAPOLIS, Ind., April 4.—Jack Hendricks, manager of the Cincinnati Reds, told the United Press today that he expected the Reds to battle it out with the Pittsburgh Pirates and the Chicago Cubs for the National league pennant.

"I don't claim a pennant winner for Cincinnati," he said, "but I like the looks of my club very much. I think the Reds will finish in the first division and with any break in luck we'll fight it out with the Pirates and Cubs for the pennant."

The Pirates, Hendricks said, are without a glaring weakness and ought to win again.

"Sparky Adams plugged the gap at second and gave the Pirates the strength needed to recover from their world series beating," Hendricks said.

Hendricks believes "Kiki" Cuyler just about made the Chicago Cubs.

There are few changes in the Reds' lineup from last year. Kelly and Pipp will play first, Critz second, Ford short and Dessen third.

The outfielders are Walker, Zitzmann, Purdy, Callaghan and Allen. "Rube" Bressler is gone, having transferred himself to Brooklyn.

ARMY RECRUIT

Paul Easterling, with the Detroit Tigers, was a buck private in Uncle Sam's army only two years ago. When he got a chance, he joined the Seattle club and after spending last season in the Three-Eye league, where he batted .342, the Tigers bought him for a big chunk of cash in addition to sending Art Ruble to Seattle.

Matt Addie May Sub For Emanuel

LOS ANGELES, April 4.—Matt Addie, Philadelphia heavyweight, may be the substitute opponent for Armand Emanuel, San Francisco, on the Olympic auditorium card next Tuesday. The boxing commission refused to sanction a Rosy Rosales-Emanuel match.

TAYLOR GROGGY AT FINISH BUT BEATS ZORILLA

LOS ANGELES, April 4.—Bud Taylor, blond world's bantam-weight champion of Terre Haute, fought one of his gamest Los Angeles battles to win a 10-round decision over Santiago Zorilla, Panamanian, at the Olympic auditorium last night.

Taylor was groggy from a two-handed pounding to the face in the last two rounds. In the ninth he rode out a storm only by calling on all the courage that helped make him a champion.

Taylor had a bad last three rounds. The lead he had taken early in the fight gave the Terre Haute terror the victory.

In the first five rounds he smashed a ripping left to the fast Panamanian's body and head. At times it seemed Zorilla must go down.

Santiago's youth and speed proved to be a huge handicap to Taylor. Railing near the close to open his relentless attack to the head Zorilla might have furnished a decisive reversal and put Bud out had it not been for the latter's courage.

The bout was clean. Taylor showed his sportsmanship by helping Zorilla up when he slipped and fell. Zorilla retaliated by picking up Taylor's bridge and handing it back when it was knocked to the floor in the middle of a round.

DOROTHY MACKAYE CLEANING CELLS

SAN QUENTIN, Calif., April 4.—Life in San Quentin penitentiary is not so bad after all, according to Dorothy Mackaye, stage and screen star.

Dorothy danced before she went to prison. She danced on board the ferry that took her to the gates of the great, stone structure, and her heart continued to dance beneath the rough blue and white dress, which is her prison costume.

She was sentenced for concealing the facts in connection with the death of her husband, Ray Raymond, killed in a fist fight with Paul Kelly, screen star.

On the other side of the "big wall" that separates the women's and men's sections of the prison, is Paul Kelly, also serving sentence for the death of Raymond.

"Dot" was willing to talk of everything but Kelly. She spoke freely of the convent which she attended as a girl, she spoke of her trial and of her time in the Los Angeles jail, but she refused to discuss Kelly.

"Why bring that up?" was her

Some men are glad when their wives go to the country. But Harold McKain, below, is different. He is a baseball player, a pitcher who won 20 out of 23 games in the Mississippi Valley league last term and yet he quit a chance to make good in the big leagues the other day because the Cleveland club insisted on its rule—no wives at spring training camp. Here's McKain and his wife. It might be noted that McKain is 19 and has been married but a few months.

reply to a question whether she wished to see him.

"I never slept better," Dot said.

"My appetite is fine."

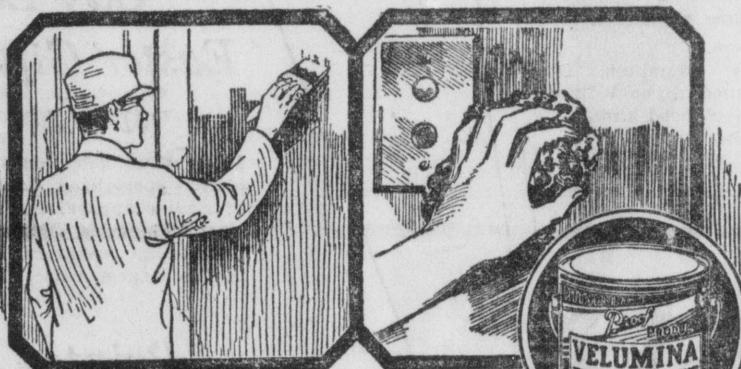

"I enjoy the fresh air and I'm having a good time."

"In fact, there aren't many rules and restrictions here as there were in the convent in Texas where I was educated."

"You know, I was afraid of the penitentiary before I came. People told me so many terrible stories, but this has the Los Angeles county jail beaten a block."

"The only thing I'm sorry about is the stigma it places on my child."

"Dot" Mackaye, who danced before the footlights, had her whirl before the klieg and her frolic beneath the madras, has been assigned to cleaning cells in the prison, and she is game.

MEXICO MOVES TO ATTRACT TOURISTS

MEXICO CITY, April 4.—Mexican immigration and customs officers along the United States border have been ordered to lay their revolvers aside when inspecting visitors' baggage and passports.

The treasury departments is going to place such officers in uniform and destroy the impression that foreigners now receive when they cross the line that all Mexican officials are armed to the teeth.

Where arms are carried they will be concealed, the treasury orders. Likewise all inspectors are to make every effort to be courteous to visitors and to aid them as much as possible in the examination of their baggage and papers.

Many of the tourists who have come to Mexico this winter in special trains or even in smaller groups have been able to pass through the immigration and customs without the slightest annoyance. Tourist and travel companies or other responsible persons can in some cases vouch for entire parties and the formality of entering Mexico is reduced to a minimum.

Altogether several thousand visitors have come to Mexico from the United States and South America since the first of the year and it was this evidence of a revival of the tourist business that encouraged the Mexican government to make changes in the border service. Although no definite projects are under way at the moment among other means of promoting tourist traffic is the proposed establishment of a new passenger ship line from Florida and Cuba to Vera Cruz.

DELEGATES TO EXCHANGE CLUB MEET SELECTED

Gene Douglas, president, and Les Eckel, secretary of the Santa Ana Exchange club, will represent the local organization as delegates at the state convention of the service groups in Fresno, May 2 to 6, it was announced today.

The two men were selected yesterday at the club's meeting in Ketter's cafe. Lester Tibbets and Stanley Clem were chosen as alternates.

In addition to these members, Jim Mahoney and Charles Pritchard announced their intention of attending the state gathering, and it is expected that a number of others will be present when the affair begins.

The Fresno club has announced elaborate plans for making the session an attractive one and Douglas urged the Santa Ana members to make an effort to attend.

April 17 was designated as ladies' day yesterday, and members of the organization will entertain their wives and friends here on that date.

COUNTY P.T.A. MEMBERS ARE INVITED TO ALL DAY FIESTA IN RIVERSIDE ON THURSDAY

By MRS. NEAL BEISEL
District P.T.A. Press Chairman
Members of the Fourth District, Congress of Parents and Teachers, have been honored by an invitation from the Mission Indian federation to attend an all-day fiesta tomorrow, at the home of Jonathan Tibbets, 171 Prospect avenue, Riverside.

The fiesta is one of a series which began on April 2, to continue all week. Thursday is the only day on which invited guests will be received, as all other days will be given over to the tribal conferences and sacred ceremonies. On Thursday morning the fourth district members will be honored guests and will join with others in presenting a program of entertainment and instruction for their Indian friends, who will reciprocate by serving a barbecued dinner and giving a typical fiesta in the afternoon.

A most interesting program has been arranged which will feature old-time pioneers of San Bernardino and Riverside counties and representatives from Pomona college and the Parent-Teacher association. "Tooch" Martin, the 85-year-old forty-niner, will sing "The Days of Old, the Days of Gold, the Days of '49," accompanied by his pal, John Brown, on the accordion. Dr. Harding will meet the Indians and sing "The Boys of '61." Mrs. Emma J. Seamans of Yorba Linda will give piano compositions of her own, and Walter Moore will also give violin and vocal solos. Mrs. Nancy Marlowe, of Newport Beach, will be heard in a group of character songs; Billy Robertson, of Fullerton, will give tenor solos, and John Michelbach of Riverside will give a bass solo in a costume song. Greetings from the fourth district with an account of work accomplished for Indian welfare, will be given by Mrs. J. V. Kelsey, district president. Billy Summers, young son of Mrs. Florence Summers, Newport Beach 297-W.

LA HABRA

LA HABRA, April 4.—Mrs. U. R. Phillips called on Miss Winifred Clare Cooley in Brea Monday afternoon. Miss Cooley is recuperating from an operation on her right limb as the result of an auto accident a few years ago. This was their first meeting in 15 years. The meeting came about as the result of a recent news item of Miss Cooley's operation in The Register.

Dinner guests at the F. W. Bishop home Sunday were Mr. and Mrs. George McKeefe, of Chicago; Mr. and Mrs. F. E. Bates and Mrs. T. A. Brown, of Los Angeles.

Mr. and Mrs. H. I. Morris returned Sunday from four days vacation at Watsonville.

Mr. and Mrs. Lee Pride and

children will leave Thursday for Stratmore, where they will spend eight weeks.

A meeting of the auxiliary of the American Legion was held Monday evening at the Legion hall. Plans were made for entertaining the Forty and Eight executive committee at the Masonic temple tonight. It was decided that another home talent play would be given soon.

Refreshments were served. Present were Mrs. E. N. Whittemore, Mrs. M. G. Renken, Mrs. John Torp, Mrs. J. Frazier, Mrs. Thos. La Monte, Mrs. E. M. Jackson and Mrs. William Wessell.

ORANGE COUNTY WILL PROTECT DOGS IN AUTOS

The right of dogs to protection of life and limb on Orange county highways is to be accorded legal recognition as a result of action taken yesterday by the board of supervisors.

Those who have marveled at members of the canine fraternity hugging close to speeding cars as they lope along the roads or swing

around curves will be spared their anxiety in the future, for the laws of this county are to demand protection for these outside passengers.

District Attorney Z. B. West Jr. is to prepare an ordinance which will require that dogs and other animals shall not be carried on running boards or any other outer portions of automobiles unless they are fenced in or protected in some other way from danger of falling off.

Many dogs in this section have become adept at the art of holding on to the slick surface of fenders under trying conditions. But the possible catastrophe to a faithful animal, with the accompanying danger to passing traffic is to be eliminated, the supervisors decided.

ALL WEEDS IN COUNTY TO BE CUT TO GROUND

The spirit of cleaning up, inaugurated here by the Junior Chamber of Commerce, is spreading all over Orange county, it was revealed today.

A. A. Brock, county horticultural commissioner, is making arrangements to attack all weeds along county highways and will launch a spraying campaign which is cal-

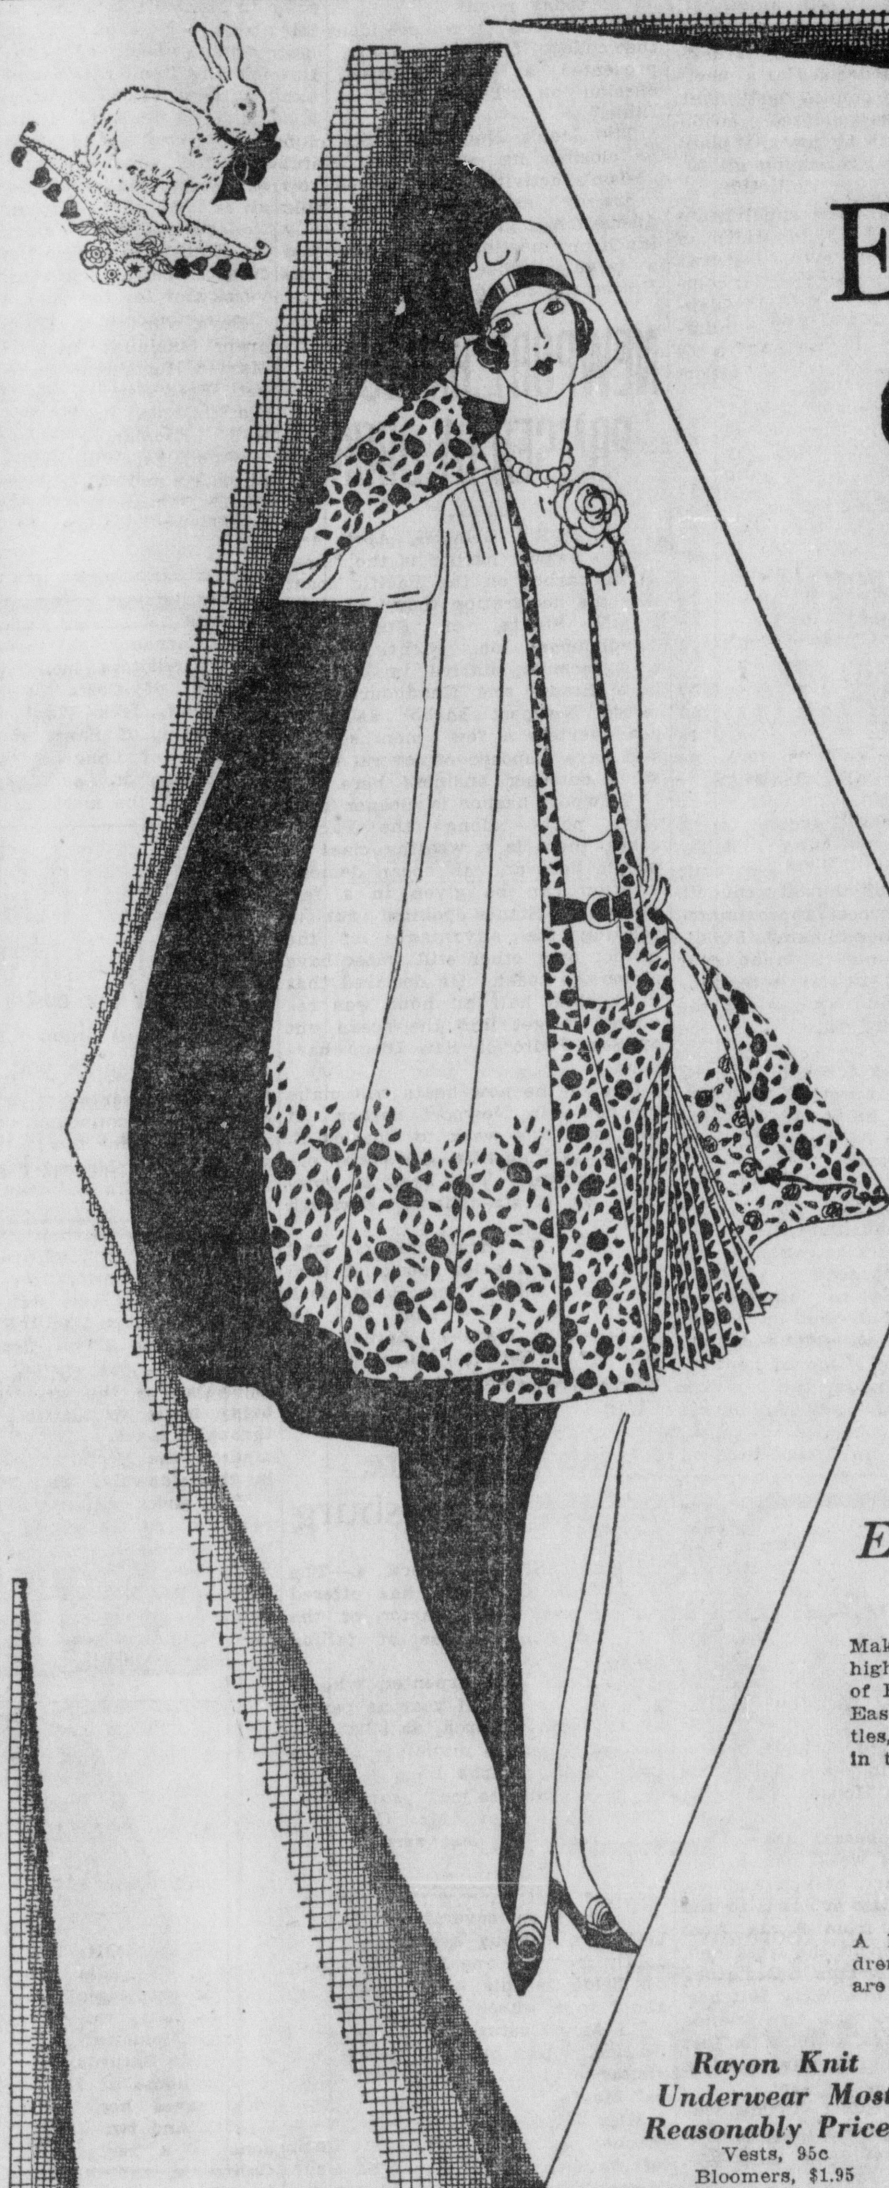

culated to level all undesirable growth on road borders.

The board of supervisors yesterday authorized him to secure the necessary apparatus and he will begin at once the task of killing weeds. Brock has supervised this process for a number of years.

Diesel oil and sodium sulphide have been found the most satisfactory sprays, Brock said, and the former will be used chiefly in the war on highway grasses.

There are advantages to having this bank act as co-executor of your will

It is not unusual for people who have become apprehensive regarding the handling of their estates to seek our advice.

To cite one of the most common cases: A man dies, having appointed an executor whose chief qualifications are honesty and life-long friendship. With the best of intentions, the executor has made investments of questionable soundness.

Later the legatee, usually the

widow, visits us to ask what can be done to guide the executor in his decisions—a situation that is neither pleasant nor easy to cope with.

By appointing the First National co-executor of your will, to act with an individual executor, you may secure for your family the protection and personal interest of a friend and the personal knowledge and experience of a great bank.

NEW TRACTS IN FULLERTON TO BE REGULATED

FULLERTON, April 4.—Subdivisions opened in this city in the future will be governed by a definite plan, it was decided at a meeting of the city council last night. City councilmen adopted recommendations made by the city planning commission governing all future development in Fullerton.

Main streets in new subdivisions must have a minimum width of 80 feet and a width of 100 feet was recommended by the planning commission report. Streets in residential districts must have a minimum width of 40 feet and a 60 foot width is preferred, the report showed.

City blocks are to be from 750 to 1000 feet in length if the recommendation of the commission is followed out. W. H. Wickert, chairman of the planning body, who presented the report to the city council, stated that the longer blocks had been recommended in view of the increasing automobile traffic. He stated that fewer intersections would tend to cut down accidents.

Recommendations affecting the widening of several streets and the establishment of set back lines on other thoroughfares were included in the report of the planning commission.

Plans and specifications for a bridge to be placed across a gulley at the end of Wilshire avenue were approved by the city council. The bridge will cost approximately \$2116, it was estimated. Subdividers who opened a tract near the end of the street will contribute \$1300 toward the cost of the structure, it was reported at the meeting.

The contract for paving one-half block on Harvard avenue near Maple street was let to the Griffith company. The council will meet again next Tuesday night.

NEWPORT HARBOR PRAISED BY BROKER

NEWPORT BEACH, April 4.—That Newport harbor is the finest yacht harbor on the Pacific coast was the declaration today of Robert V. Staats, of Staats and Chabourne, Inc., yacht brokers, who recently started in business here. Staats and Chabourne selected Newport harbor as their headquarters a few months ago and have disposed of several boats since entering business here.

"Newport harbor is cleaner than other ports along the Pacific coast, there is a wealthy class of people here and an ocean demonstration can be given in a few minutes," Staats pointed out in relating the advantages of the harbor over other still water bays along the coast. He declared that more than half an hour was required to get into the ocean out of San Pedro or San Diego harbors.

One of the new boats will make its home in Newport harbor. It was sold this week to Charles E. Fuller, of Placentia, a wealthy orange grower. The boat is powered by a six-cylinder Kermath motor.

Dr. K. E. Kretschmar, well known Los Angeles specialist, also purchased a boat from Staats and Chabourne. The boat will be launched at Newport harbor and will be taken to Magu lagoon, where Kretschmar has a summer home.

Quits Pastorate At Wintersburg

WINTERSBURG, April 4.—The Rev. J. R. Carpenter has offered his resignation as pastor of the local church, because of failing health.

The Rev. Mr. Carpenter, who is here for the second year as pastor of the local church, is changing pastorate with a minister in Boise City, Idaho, in the hope that the change of climate may prove beneficial. The Rev. Mr. Carpenter will preach his last sermon here April 15.

where he spent several months following a serious accident in the cently from a Long Beach hospital, oil fields, is this week able to be about in a wheel chair.

Ed. Moore returned Monday from Orange, where he was a week end visitor in the home of his son, Norval Moore.

Miss Gladys Hurst, who is a teacher in the Oceanview school, left Saturday for Fresno, where she is spending the week of Easter vacation with friends.

G. M. Roberson is quite ill with influenza and has been confined to his home since Saturday.

LIONS OF MESA HEAR TALKS BY BOY FARMERS

COSTA MESA, April 4.—The Boys' Agricultural club of Costa Mesa staged the program at the regular meeting of the Lions club yesterday noon. Earl Patterson, leader of the club, was in charge. Music by the club orchestra and short talks by members featured the session. A short talk was given by E. E. Eastman, of the agricultural extension service of the University of California.

Boys who took part in the program included William Brown, Marvin Hartshorne, Raymond Hockett, Fred Esemann, Ira Hartshorne, Clark Slave, Marvin Hockett, Arthur Esemann, Stanley Crane, Wayne Dye, William Hatch, Gene Spessard and William Evans. Miss Lucile Boyd and Miss Roberta Southerland assisted in presenting the program.

Dr. C. G. Huston was in charge of the business session. The meeting was held at the Woman's Friday Afternoon club house. A number of visitors including George Bremer, of Costa Mesa, E. M. Sundquist, Jack Wallace and W. B. Martin, of Santa Ana; H. B. McBride, of Long Beach, and A. P. Holmes, of Los Angeles, were present at the meeting.

PLACENTIA PLANS NEW SIDEWALKS

PLACENTIA, April 4.—A petition was presented at the meeting of the city council here Monday night asking for the installation of sidewalks on Melrose avenue, between Santa Fe and Center streets.

While no definite action was taken on the petition, the council instructed City Attorney Albert Launer to notify the property owners of the two legal methods that may be used in the installing of sidewalks. The first method provides for the putting in of the sidewalks by the city, the charge being made to abutting property through taxes. By the second method the property owners put in the sidewalks themselves.

The strict enforcement of the recently passed weed ordinance was promised by the council. Heretofore, difficulty has been encountered in the cleaning of weeds from vacant lots but the new ordinance has been designed to make Placentia city free from weeds.

The last meeting of the old council will be held April 16, at 7:30 p. m.

Beach Resident Is Laid To Rest

HUNTINGTON BEACH, April 4.—Mrs. Capatolia Arnold, a resident of Huntington Beach for the past 14 years, was buried today in Central Memorial park. Mrs. Arnold died Saturday at 5:30 a. m. at her home at 530 Tenth street. She leaves her husband, G. W. Arnold, and two sons. One of the sons is a resident of Northern California, and the other son lives in Minnesota. Services were held at the Christian church with the Rev. Mr. Hurst officiating.

ORANGE BOARD BUYS 108 NEW STREET LIGHTS

ORANGE, April 4.—Installation of 108 new street lights of the mast type was ordered at a meeting of the city council yesterday. The lights will be similar to the one that has been used for demonstration purposes on Grand street the past week.

The lights will be placed on streets where there is a great deal of heavy foliage. A map of the needed points has been made by the city engineer, C. C. Bonebrake. Permission was asked by Aaron Engle to remove a number of trees from the parking in front of his home at the corner of Washington and Shafer streets in order that he might plant the parking to palms.

The matter was referred to the street committee with power to act.

Mrs. E. W. Danielson, owner of a one-cow dairy was granted a reduced license rate of \$150. Licenses on a number of pool rooms and rooming houses that were reduced last quarter were placed at the same amount for the coming quarter.

The report of the city recorder showed the number of fines collected during the past month to be \$350.50.

The report of the superintendent of the water works showed 16,423,000 gallons of water to have been pumped by the electric pump and 18,730,000 gallons by the gas pump. Eight new water connections were made. New water mains were laid on East Walnut street for 138 feet.

City Engineer C. C. Bonebrake reported the oiling and graveling of Lester drive from Chapman avenue to Maple and the shoulders of Collins avenue from Tustin to the Espee tracks.

A stop sign was ordered placed at the corner of Tustin and Walnut streets to take care of the westward traffic.

Fire Chief A. L. Tomlin and Councilman Ross Miller were appointed to represent Orange at the meeting of the Fire Chiefs' association of Southern California at Coronado this month.

An appropriation was made from the advertising fund for \$100 to be given to the Boulder Dam association.

City Manager In La Habra Quits Office

LA HABRA, April 4.—The city manager form of government in La Habra, it was announced today following the resignation last night of Paul Pratt, city manager. Pratt was appointed city manager last November, when the city manager type of government was adopted. Pratt's resignation was accepted by the council and will take effect April 15. He has accepted a position with the Portland Cement company.

Pratt also held the offices of street superintendent, sewer superintendent, building inspector, plumbing inspector and electrical inspector.

A contract for the paving of six short streets in the city was let to Steele Finley, Santa Ana contractor. Finley was low bidder on the jobs with a figure of \$29,402.20.

MRS. H. M. ADAMS CLUB PRESIDENT

ANAHEIM, April 4.—Mrs. Henry M. Adams is scheduled to be the next president of the Anaheim Eboli club, succeeding Mrs. H. H. Benjamin, it was revealed today, when the report of the recently appointed nominating committee was made public. The election will take place at the regular May meeting.

Mrs. Adams is the only nominee for the presidency.

Other nominations made are as follows: First vice president, Mrs. C. E. Harbison; second vice president, Mrs. J. H. Swan; recording secretary, Mrs. Robert Hainlin; corresponding secretary, Mrs. H. B. Pearson; treasurer, Mrs. C. H. Mann; financial treasurer, Mrs. Vincent Bruce; curator, Mrs. J. W. Harpster; librarian, Mrs. Herbert Oelke; parliamentarian, Mrs. J. P. Wilson; and historian, Mrs. H. A. Johnston; directors for three years, Mesdames H. Benjamin, Harry Sears and Homer Ames.

The nominating committee was composed of Mesdames H. N. White, A. C. Pearson, H. D. Newkirk and Frances Mapes and Miss E. Kate Rea.

WORK STARTED ON 3 NEWPORT BEACH HOUSES

NEWPORT BEACH, April 4.—Construction work was started here this week on three new two-story homes by Paul Ellsworth, of Ellsworth Brothers and Son, local contractors. The homes will cost approximately \$26,000, it is reported.

James Tuffree, prominent Placentia orange grower, is constructing a new home on the ocean front at C street. The house is being built along Spanish lines and will contain nine rooms. Provision will be made in the house for three cars. The house will cost approximately \$12,000.

H. M. Worcester, of Los Angeles, and an officer in the Southland Sailing club, has started work on an eight-room house on Balboa island. Ellsworth Brothers and Son are building the structure. The building will cost approximately \$7000.

Charles E. Donnelly, of Los Angeles, is building a seven-room beach home on the bay front on Balboa island. The structure will cost approximately \$7000.

Clarence Safley, of Santa Ana, has sold a lot on Balboa island to William J. Langjahr, of Los Angeles. Langjahr will build a beach cottage on the property in the near future. The deal was made through W. L. Jordan, local real estate dealer.

Olive Newlyweds Guests At Party

OLIVE, April 4.—Honoring Mr. and Mrs. Carl Llerman, who were married here last week, Mrs. Esther Freese and Mrs. Ada Otte entertained a group of friends at the Otte home the first of the week. The evening was spent at "500," first prizes going to Miss Frieda Gunther and Herbert Meirhoff. Mrs. Werner was consoled.

Those present were Mr. and Mrs. Walter Otte, Mr. and Mrs. Herbert Meirhoff, Mr. and Mrs. F. Meirhoff, Mr. and Mrs. Werner, of Orange; Mr. and Mrs. Herman Freese, of Anaheim; Howard Nelson, of Huntington Park; Miss Alma Schroeder and Miss Frieda Gunther, of Anaheim, and Mr. and Mrs. Freese and Ted Hudepohl.

YOU and your Friends

The Rev. George E. Burlingame of the Y. M. C. A. spent yesterday in Los Angeles.

J. W. Daniell has returned to his home at 1445 Orange avenue from the Santa Ana Valley hospital where he underwent a serious operation. He is reported to be greatly improved in health.

Word was received here today of the death of C. M. Miller at his home in Sturgeon, Mo. He was the father of Mrs. J. C. Sexton, 1407 Spurgeon street. Mrs. Sexton has been with him for the last three weeks.

Expecting to be in Albuquerque, N. M., yesterday, and there to enjoy a several days' stay, a party of Santa Anans composed of Mrs. Charles Huff, Mrs. Ethel Whitted, Mrs. Earl Morrow and Mrs. Susan Rutherford, were planning to extend their automobile tour of the southwest for several weeks yet. The tour left Santa Ana late last week, and were to visit El Paso and other southern cities, and to include the Grand Canyon in their itinerary, also the famous "Indian detour" from Albuquerque.

Miss Marion Schleede of 118 East Walnut street, has returned from a pleasant week-end visit with friends in Los Angeles and Santa Monica.

Mr. and Mrs. H. W. Balsley of 115 West Second street, and Mrs. Balsley's sister, Mrs. Clarence Lowe of Deer Lodge, Mont., who has been their house-guest for the past month, have returned from a pleasant trip to San Diego and Tia Juana. Mrs. Lowe left yesterday afternoon to visit another sister, Mrs. Jackson of Long Beach, and will return here for a further stay before leaving for her Montana home.

Miss Naydine Warner and her brother, Ed Warner, of Pomona, have been visiting at the home of Mr. and Mrs. C. H. Willoughby of 601 West Eighth street.

Mr. and Mrs. Paul Vissman of Bakersfield, formerly of this city, are visiting friends here.

Miss Helen Randall of Los Angeles returned to her home yesterday following a visit here with Miss Helen Menges of 429 South Birch street.

Harvey Bear, a freshman at Pomona college is spending the Easter vacation here with his parents, Mr. and Mrs. D. A. Bear of 1406 East First street.

Mr. and Mrs. T. V. Todd of Garden Grove and Mr. and Mrs. Jack Fisher of this city have returned from a short vacation spent at Palm Springs and Indio.

T. E. Stephenson, his son, Terry Stephenson Jr., Stanley Nord, Fred Humiston and Robert Northcross returned today from a three day's vacation on the Mojave desert in San Diego county.

Mr. and Mrs. A. J. Ralph of 2403 Oakmont avenue, spent a few days in Lindsey recently where Mr. Ralph was called on business.

Mrs. E. Eggleton of 109 Wright street was taken to the Santa Ana Valley hospital this morning for an appendicitis operation.

Mr. and Mrs. A. B. Gardner, their daughter, Miss Ruth Gardner of 1602 North Broadway, and the latter's friend, Miss Virginia Hill, left this morning for a trip which will take them as far north as Bakersfield. On their return trip they will stop in Elsinore to visit Mrs. Gardner's mother, Mrs. Anna Pendleton, who has been spending several months there.

Mrs. J. O. Gullidge and her son of West Seventh street and Mrs. Harry F. Coleman of North Flower street spent yesterday in Venice as the guests of Mrs. Gullidge's sister-in-law, Mrs. I. B. Franklin.

SKIRTS MATCH DANCE

PARIS, April 4.—A fashionable dressmaker here hold the modern dance responsible for short skirts. "Ballroom changes have resulted in tube-like skirts, which have become shorter and shorter," he says, "but recent signs of a return to the waists and barn dances will bring evening gowns that will be longer, fuller and altogether more graceful."

Original Stories Read At April Meeting of Quill Pen Club

"Five Legs to a Sheep" was the intriguing title of a story which Mrs. Frank Was read last night before members of the Quill Pen club, assembled at the home of Mrs. Mason Yould, 1011 Olive street, for their first April meeting.

The home, which bears so much evidence of Mrs. Yould's artistic ability in its potteries, brasses and pictures, was most interesting to the Quill Pen members, and its charm was further enhanced by roses and sweet peas from the blooming garden.

Mrs. Harry M. Smith, club president, conducted the roll call in the absence of the secretary, Mrs. Herman Reuter, and members responded with brief stories giving two conversations expressing individual reactions to an episode.

Mrs. R. A. Cushman's criticisms of the two features of the previous program, were then read. They dealt with a story by Mrs. Marshall Harnois and a play by Mrs. Blanche Brown.

Mrs. Was built her story, "Five Legs to a Sheep" around an amusing character, a typical darkey of the old school, and her title was an old Negro saying to express the impossible.

Mrs. J. F. Adams offered the second story, which she had not yet titled, and which was an interesting study in psychology. Each story was followed by informal criticism from each member, all of which will be assembled and presented at the next meeting.

Mrs. Yould gave a pleasant social aspect to the remainder of the evening by serving apple pie with whipped cream and coffee, as the club members lingered to chat. In the group were the hostess, the president, Mrs. Smith, Mrs. Frank Was, Mrs. J. F. Adams, Mrs. Blanche Brown, Mrs. George Stuchan, Miss Lucy Agar, Mrs. Eleanor Elliott, Mrs. E. E. Boething and Mrs. J. U. Vlau who was warmly congratulated by her sister clubwomen, on her success in the recent Community Players offering, "The Show-Off."

Attends Wedding of Cousin in Los Angeles

Mrs. Mabel Isaacson has returned to St. Ann's Inn after a few days stay in Los Angeles, where she attended the wedding on Sunday of her cousin, Miss Gertrude Nordstrom, to Austen Lester of Alhambra.

The wedding was a church affair and was followed by a reception and breakfast in Alhambra. The bride came from her home in Kansas a few months ago, and has been studying at the Otis Art Institute.

Birthday Celebration Is Compliment to Judge Taft

Complimenting Judge F. H. Taft of Santa Monica, Mr. and Mrs. Fred G. Taylor of 1608 East Fourth street, entertained early in the week, at a dinner of attractive appointments at St. Ann's Inn.

The occasion was Judge Taft's birthday, and he and Mrs. Taft were accompanied from Santa Monica by Miss Caroline Welch while other guests were Mr. and Mrs. A. E. Marker and daughter, Miss Elizabeth Marker of Downey, Mrs. O. M. Robbins, Miss Doris Robbins, Miss Dorothy Mayhew and Phillip Taylor of this city.

Mrs. Taylor chose a color scheme of her favorite rich purple and delicate rose tones for the table, using a mass of deep toned stock and tiny pink roses circled with maidenhair fern. Candles and nutcrackers were pink, and much rose crystal was used in the dinner service.

Judge and Mrs. Taft and Mr. and Mrs. Taylor have been close friends for years and usually arrange to celebrate birthday and wedding anniversaries together.

Picture Exhibit Opens With Reception

Launching the ninth annual exhibition of the work of California painters and sculptors, the board of directors and governor of the Los Angeles museum, will hold a reception on Friday night, at 8 o'clock, under the auspices of the Museum Patrons' association.

A number of Santa Anans are planning to accept invitations to the event. Among those who will attend are Miss Beulah May, a member of the Sculptors' association, and Mrs. Robert Northcross. Miss May is usually represented in the exhibit, but did not submit any of her sculptures this year.

Charming Girls Are Spending Vacation At Catalina

Vacation days offered opportunity to a group of charming young girls, for a house-party at Catalina Island, and the manifold pleasures of the resort are being thoroughly enjoyed this week by the young people.

Mrs. William H. Spurgeon of 1617 North Main street, is chaperoning the bevy of girls, who are the Misses Florence Brownridge, Margaret Whitson, Dorothy Diehl, Clara Kate Owens, Julia Thorndyke, Elpha Thorndyke, Marcia Keeler, Eleanor Blairdon, Frances Vieira, Sherrill Spurgeon, Betty Smith, Marcia Huber and Olive Granger.

Out-of-Town Guests Are Entertained

Mr. and Mrs. Irving F. Schleede of 118 East Walnut street, were guests at a pleasant dinner party of the early week, when a group of out-of-town friends experienced their hospitality.

Many of the season's flowers were used as table and home decorations. Covers were laid for the hosts, Mr. and Mrs. Schleede, and for Mr. and Mrs. George Sheldon of Hollywood, Mr. and Mrs. Herman Hurlile and Mr. and Mrs. A. D. Garlick of Santa Monica, and Mrs. Allie Herrick of Swanton, Ohio.

1. Lesser ones, such as waiters, chambermaids, porters and so on.
 2. Those in administrative positions, such as hotel clerks, pursers on a ship or Pullman conductors.
 3. An appreciative word or manner, or if they show unusual consideration, write a note to their employers commending them.

TOO MUST SEX APPEAL
LONDON, April 4.—Films have "too much sex appeal." That's the gist of a protest recently made by the vigilance committee at Birkenhead to the licensing magistrates. "The subject matter of many films," says the committee, "is taken from the seamy side of life and where the pictures alone might fail, offensive suggestions are driven home by the captions."

Women Of Today Are Free

By OLIVE ROBERTS BARTON

The change of status in thirty years, concerning the girl who "works" is almost beyond belief. The young woman who now steps out of a normal school, business college, or university, fired by an ambition to earn money, deserves credit, but not the credit that went to those girls a generation or two ago who faced criticism and almost ostracism if they chose to be financially independent.

We wonder what a girl would think now, who is preparing herself for teaching, if confronted by a certain paragraph in a small book of "suggestions" for teachers used by certain normal schools in 1900. This little book admonished its readers thus: "A teacher must remember that she has no social position."

I wonder what would happen to the author of such a ridiculous sentiment now.

That attitude, however, was typical at the time of almost any career a woman chose to follow outside of the home. There were exceptions, such as law or medicine, but they were too occasional to count. Even the arts ceased to be honored by the smiles of the socially elect if they became professional and earned money. A girl could dabble in painting or decorating, but the instant she took money, down she went, kerflop, into the social discard. Music was a little different, but it, too, had its own ethics and drew a social deadline.

When we begin to think that the new scheme of things is wrong we should hark back to the dark ages of 1900 and inhale a whiff of the stale dungeon-air of prejudice.

STORY BY HAI COCHRAN—PICTURES BY KNICK

(Read The Story, Then Color The Picture)

The cake the Tines saw was round. Wee Scouty cried, "Where was that found?" "I fooled you," said the baker. "This was made some time ago. I feared your own cake might fall flat, and that's what happened. Think of that! 'Tis always best to have another cake on hand, you know."

"My, that's three lawyers," Clowny cried. "Say, is there frosting spread inside? I just love tasty frosting. I could eat that cake myself. But maybe it's too hot to eat. If so, we'll just postpone our treat, and wait until it cools a bit upon your pantry shelf."

The baker laughed, and then he cried, "There's lots of jelly spread inside. But you will find there's plenty frosting all around the top. Don't worry 'bout it's being hot. That would be foolish, 'cause it's not. I fear to let you start to eat. You won't know when to stop."

"Remember, if you eat too much, you'll have bad tummy pains and such. The frosting's very sweet, you see, and one piece is enough. Whatever's left we'll put away, and finish it some other day. Now, promise me, you Tinymites, that none of you will stuff."

The Tinymites all cried, "We do! And we will keep the promise, too. One piece for each is all we want, 'cause more might make us sick." "All right," replied the baker man. And then he took the big cake pan and said, "Come on, we'll find a knife, and cut the cake real quick."

Right near at hand the knife was found, and as the Tines gathered 'round, the baker sliced off piece by piece, which filled the bunch with glee. And when they all began to eat, they found the frosting nice and sweet, and Scouty cried, "Oh, yum, yum, yum, it's good as it can be."

for the Family

By SISTER MARY

BREAKFAST—Stewed rhubarb, cereal, cream, potato omelet, crisp toast, milk, coffee.

LUNCHEON—Lima beans baked with cheese, beet and cabbage salad, prune whip, milk, tea.

DINNER—Codfish pie, apple and raisin salad, cherry pudding, milk, coffee.

Codfish Pie

Three-fourths pound salt codfish, 2 large sweet green peppers, 1 tablespoon olive oil, 1 onion, 1 tablespoon minced parsley, 2 cups canned tomatoes, 1 bouillon cube, 1-2 cup boiling water, 2 teaspoons flour, 6 medium sized boiled potatoes, 4 tablespoons buttered bread crumbs.

Let fish soak in lukewarm water to more than cover for three hours. Drain and shred. Simmer over a low fire until tender. Drain. Put oil in frying pan, add onion, peeled and minced with parsley, and cook until onion is a pale straw color. Add peppers seeded and cut in shreds and tomatoes. Simmer 20 minutes and add bouillon cube dissolved in water. Stir flour to a smooth paste with a little cold water and stir into tomato mixture. Cook ten minutes, stirring constantly. Cut potatoes in thin slices and cover the bottom of a buttered baking dish. Add a layer of fish, cover with sauce and add another layer of potatoes. Continue layer for layer of potatoes, fish and sauce until all is used. Cover with buttered crumbs and bake thirty minutes in a moderately hot oven. Serve from baking dish.

EAT THE THEATER

YOST BROADWAY THEATER

A laugh-provoking, rich, wholesome comedy in "A Blonde for a Night," a new studio production starring Marie Prevost is now at the Yost Broadway.

The producers attempted, with marked success, to cram every known variety of comedy into a story, which, in addition exploits a fresh idea for all it is worth. The result is one of the fastest moving, most genuinely engaging pieces of entertainment which has adorned the Broadway theater's screen for some time.

WEST COAST-WALKER

Timeliness is always an attribute in appealing to the motion picture public and, as was the case of "Wings," the epic of the air, "The Legion of the Condemned," another screen story of the aviator, which opened at the West Coast-Walker theater today is bursting with this self-same constituent.

Following in the wake of Col. Lindbergh's flight, the country has been demanding more and more air stories. With "Wings" and "The Legion of the Condemned," Paramount is more than keeping abreast of the times.

In the leading roles are Gary Cooper and Fay Wray.

It was only natural that Paramount would select young William Wellman to direct "The Legion of the Condemned." In the first place he was a member of the Lafayette squadron himself during the war and there is little you could tell him about the flying of airplanes. Secondly, this is the young man who handled the megaphone on "Wings" and so there is very little you could tell him about the photographing of air pictures.

WEST END THEATER

The most accurate screen depiction of college spirit and the college student at play ever made opened last night at the West End theater before a large and enthusiastic audience. It is "Her Summer Hero," featuring a notable cast headed by Hugh Trevor and Duane Thompson.

The story deals with the adventures of a young college man who takes a job as lifeguard at a fashionable summer watering-

place. Falling in love with a beautiful girl, sister of a college chum, the boy rides through many adversities to win her love.

TUSTIN TOWNSHIP TO BE RESTORED

The Tustin township is to be restored. A decision to grant a petition from 64 residents of that city asking that this action be taken, was made yesterday by the board of supervisors.

The request was filed with the county clerk and was presented to the board March 27 and resulted in the favorable action yesterday.

The creation of the township will give Tustin its own justice court and speeders who are caught in that community will no longer be tried in Santa Ana.

Observations of an old Codger

Tother A. M. I happened to notice a snail whizzing along on the rail of our backyard fence. I made a notch there and took the time at which he was passing said notch. Five hours later he had covered six feet. He may have been loitering. Tenny rate he finally got to his rose bush destination.

And, being an old codger, I thought. Thought that the tortoise has had too much advertising as a sample of earth's slow-boys, he's heel-and-toe ahead of this snail. But they both get there.

Some of us feed the gas with a heavy foot. Some of us think that sleep is old sticks. Some of us gedunk because saliva is too slow. Some wash it down.

In any event, a quart of Excelsior milk a day is the fastest way to eat the most food for the best results that there is. So, if you are in a hurry (or if you're not) a quart of Excelsior a day will get you there ahead.

Russian Aviatrix Plans Long Flight

NEW YORK, April 4.—Luba Phillips, Russian aviatrix, is going forward with her plans for a transatlantic flight this summer.

She plans to take off from New York and fly to Leningrad. Her plane has not yet been selected, nor has she chosen a flying companion, but her backers are said to have guaranteed her the funds with which to make the trip.

Mrs. Phillips began her career in aviation during the World war. Wide publicity was given her daring flights in carrying medical supplies to the front.

She is claimant of the world's altitude record for women flyers.

HOLY WEEK IS OBSERVED BY ROTARY CLUB

Presbyterians dominated the annual Holy Week program of the Rotary club, held yesterday at St. Ann's inn, for the musical numbers and the addresses, were exclusively by persons identified with the Santa Ana Presbyterian church and the Anaheim church of the same denomination.

Herbert P. Rankin, of this city, officiated as program chairman, and he presented the Rev. Thomas Walker, popular pastor of the First Presbyterian church of Anaheim as the speaker.

In stressing the value of character, the pastor cited the fact that paper currency of the United States is accepted without hesitation by business men of foreign countries, a condition which he emphatically pointed out as due to the character of the United States of America has built for itself as to honesty and integrity.

He urged acceptance of the challenge of fellowship by the Master at conclusion of an address in which he featured the laws that govern society and the universe.

Accompanied on the piano by Miss Ruth Armstrong, the choir of the Santa Ana First Presbyterian church gave a program of music appropriate to the day, the musical feature opening with a solo by Robert Bradford, "Open the Gates of the Temple." This was followed by quartette number, "Christ Arose," with A. J. Garrover, Fred Wild, Bradford and Harold Vieira forming the quartet. A duet, "The Conqueror," by Bradford and Garrover, concluded the singing program.

TRANSMITTING BABY

LONDON, April 4.—A new use for baby was revealed in Willesden police court when a young mother and her ma-in-law appeared to settle a fight before the magistrate. It all started when the two women had arrived at the point where they refused to speak to each other. So when they happened into the same room with the sleeping infant, mother addressed her offspring: "Your grandmother, darling, is—?—?" The grandmother replied: "Your mother, my love, is ***—??" Then came fistclouts and court warrants.

HAMMOND SPEAKS TO H. S. PRINCIPALS

D. K. Hammond, principal of the Santa Ana Polytechnic High school, addressed the high school principals' convention yesterday in Long Beach, speaking on the administration and supervision of the social program in secondary institutions.

Hammond referred particularly to the Boys' federation in the Santa Ana school, the outstanding achievements of which have attracted statewide attention.

A number of local teachers are attending the convention sessions daily. The chief interest centers about the new major subjects of music, commercial studies, art, home economics, and mechanic arts, which are being worked out.

These studies are to be put on the same basis and given the same weight in many ways as those in the strictly academic departments, Hammond reported.

THIS V-TYPE IS THE ULTIMATE IN 8-CYLINDER SIMPLICITY

IT HAS always been Cadillac's unique privilege to hold price down while it pushed quality up.

This it has been able to do because of its ever-increasing command of the highest fine-car market.

The only way that others can even seem to compete with Cadillac and La Salle is to indulge in compromise and surrender—with the inevitable result that eventually they drop out of Cadillac and La Salle's class forever.

Wherever volume is small, sacrifices must be made. Costs must be cut out somewhere, for there is no opportunity to spread them over a large volume.

Cadillac's extraordinarily large following therefore enables it to accomplish results impossible to others.

Chief among these results is a power plant—the fruit of years of study and experience—found only in the new Cadillac and La Salle in its most highly developed form.

This power plant is the most famous Eight in the world.

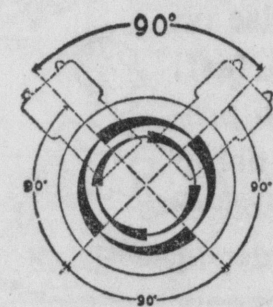

For automobiles there are two ways of designing an Eight. One is to align the eight cylinders one after the other. The other is the Cadillac V-type way.

Cadillac's reputation for superior performance has grown from its application of the V-type principle—the mounting of two blocks of four cylinders each, each block set opposite the other at a V-shaped angle of 90 degrees.

There is no other power plant just like this and for this reason there is no other car that has so simple an engine, such perfect carburetion, such lack of vibration, such delightfully smooth performance.

It is such plain and obvious superiorities as these that have won for Cadillac and La Salle their commanding following in the highest fine-car field and placed them literally beyond possibility of competition.

New lower La Salle prices, \$2350 to \$2875. Cadillac prices, \$3295 to \$3950. Exclusive Fisher and Fisher Fleetwood custom-built bodies up to \$5500. All prices f. o. b. Detroit.

THE two outstanding performance benefits resulting from the employment of the ninety-degree, V-type Eight principle are equally spaced and generously overlapping power impulses, features chiefly responsible for the smooth, velvety flow of eager power that is the dominant characteristic of every Cadillac and La Salle. This illustration shows why the ninety-degree angle between the Cadillac cylinder blocks effects these results.

3 CANDIDATES ON DEMOCRATS IN SPOTLIGHT

By HOMER L. ROBERTS
(United Press Staff Correspondent)

SACRAMENTO, April 4.—Sharing the political spotlight in California for the May 1 presidential primaries are three outstanding Democrats, Senator James A. Reed, of Missouri; Senator Thomas J. Walsh, of Montana, and Governor Al Smith, of New York.

Political observers who insisted that William Gibbs McAdoo was no longer a factor in the ranks of the Bourbons were quite surprised to learn that Senator Walsh, a dry candidate, was entered by the McAdoo forces, and that "W. G. M." himself might head the Walsh delegation.

Indeed, with Smith and Reed both on the wet side of the prohibition fence, the question of whether the three-way split in the party will give Walsh a victory in the golden state is one to ponder upon.

Have you registered? If not, better do so at once, if you expect to vote in the presidential primary May 1. The books for this election close March 31. Further, you may not legally sign any initiative petition of nominating petition of a candidate for public office unless you have been legally registered.

State your party affiliations when you register. To vote a party ballot you must state your party affiliation at least 30 days before any state election.

Proposed repeal of California's law legalizing professional prize-fights threw consternation into pugilistic ranks, especially when several state officials declared in favor of it.

An initiative measure seeking the repeal may find its way on the November election ballot, if enough signatures can be obtained upon petitions now being widely circulated.

It's moving day again at the his department of natural resource capitol.

RE-ELECTION OF TOWN'S WOMAN MAYOR IS SEEN

GREYBULL, Wyo., April 4.—Petticoat rule for another four years seems assured in this thriving little agricultural community, because the men agree they don't think any of their sex can defeat Miss Lizabeth Wiley, mayor, if she chooses to run again.

With characteristic abruptness, "Lizzie," as she is more familiarly known, isn't telling her plans because she doesn't want to satisfy the curiosity of some of her subjects who, she says, "want to know too much."

In the words of Sam Pritchett, retired railroad worker, and city councilman, who is understood to be planning a campaign for the job in the spring, "Lizzie" is just as good as "in."

"Do or say whatever you like and you can't do her a bit of good or harm. There is just one person's way up there—that is hers," he said.

Matt Karhu, a councilman, and owner of a grocery store, admits that "we won't find anyone to beat her," but "she talks too much."

It was "Lizzie" who left a lucrative confectionery business to fight the Ku Klux Klan candidate for mayor. She won. The Klansmen announced they would attend the first council meeting in a body and masked persons would be allowed inside the room.

"Wear masks and take what falls on you," she said.

No Klansmen came.

A city employee came to her home after her election, confessed he had worked to defeat her, and asked if she wanted him to resign.

"Well, considering the fact that I didn't need your vote, you see I was

elected mayor without it, I'm not interested in how you voted but how well you can do your work. Go back to your job," the mayor advised.

When an oil refinery came to Greybull, the population was about 240. "Her Honor" discovered that the refinery was using city water at a low rate and had no meters.

The meters were ordered in and the refinery rate hiked.

Financially, the town was in bad shape. Mayor Wiley discharged the city physician, city engineer and city attorney and put in a rigid program of economy.

After four years Greybull is "out of the red" and prosperous. The citizens give credit to "Lizzie."

She wears skirts and uses cosmetics.

"Petting is silly, but it is no worse than spooning, which was the same thing and also silly," she says. "The fault with boys and girls today is that they have shiftless parents that let them run wild."

Warnings to "petters" are issued regularly by "Lizzie" and are obeyed, because the "flaming youth" element doesn't know when "Her Honor" is liable to swoop down on the tete-a-tete.

Marriage? "Haven't time," says "Lizzie." And she means it.

COMPLAINANT ASKS POLICE DROP CASE

The alleged theft of \$95 from a woman's pocketbook in Anaheim on March 6, has ceased to interest the sheriff's office, it was announced today when Mrs. Pearl Anderson, Anaheim, reported that the money had been recovered and asked the sheriff to drop the case.

The money was reported taken from the purse of Miss Bessie Bach, while the purse was in a machine parked in front of the house.

C. OF C. FAVORS CITY PARK ON OLIVE STREET

Directors of the Santa Ana chamber of commerce, meeting at 9 a. m., today, for the first time on Wednesday, by appointment of a committee indicated endorsement of the movement to have the city council convert the Olive street reservoir into an athletic field, President Clyde Downing and Secretary George Raymer will act with a committee from the Junior Chamber of Commerce in presenting the proposition to the council at an informal conference scheduled for Monday afternoon at 3 o'clock. Bruce Switzer, president of the Junior chamber, and Ridley Smith, a director, will be on the committee from that organization.

In presenting the program to the directors this morning, Switzer envisioned a valuable asset to the community by creation of a stadium at the reservoir site, and he pointed out that the excavation could be enlarged easily to make it of sufficient size for a baseball park. He particularly emphasized the point that the grounds could be used by the night baseball clubs and by the municipal band in the summer, and commented on the possibility of such a stadium becoming the center for big gatherings of a public character. In the

opinion of the Junior chamber president, seating capacity for 25,000 persons could be provided in the amphitheater.

O. H. Barr, who recently was elected to the board of directors of the senior chamber of commerce, suggested that the chamber do something to counteract the unfavorable advertising this city gets by reason of the fact that the desert wind which blows here two or three times a year is called "Santa Ana wind."

The lumberman asserted that he had had personal experiences that indicated that the impression prevails most everywhere that the wind plays a steady engagement here. He recounted that within the past few days a friend visiting in Los Angeles called him by phone and wanted to know if he would have to hold his hat on if he came to Santa Ana to visit him.

Suggestion was made that literature be published explaining the origin of the wind and the name, with special data showing the wind record and velocity in this community for a period of years, the literature to be inserted by Santa Ana residents in letters going to friends and relatives at distant points.

EVERYTHING MODERN

To be up to the times you've got to have tile bath and sink, basement, furnace, stucco exterior, oil colored walls, a fireplace and a breakfast room. We have all these in a new home beautifully situated one of our best modern side residence sections. And even with all these conveniences there has been a very low price set of \$7500. A further inducement is that you can trade in a lot or small house, \$2500.

EVENING SALUTATION

Thou art not dead! Thou art the whole
Of life that quickens in the sod;
Green April is Thy very soul,
Thou great Lord God.
—Charles Hanson Towne.

WHAT FATHER WOULD YOU CHOOSE?

One of our great eastern colleges has been studying the pedigree of its brightest students, and brings out the fact which has been noted so many times before that they come in inordinate numbers from certain classes of our population. This latest investigation finds that missionaries produce the greatest number of bright students, professors the next greatest number, and ministers the third greatest. This in the main is as it always has been.

There are some good reasons why this should be so. The children of missionaries have not only a background of culture, but their broad contacts and their knowledge of the world broaden their points of view. They understand not only their own people, but other peoples. Their wide travels, as well as their wider racial contacts make them citizens of the world, and kills out pretty much all provincialism, which is so much the bane of those whose lives have been limited to village life among their own. The children of professors and ministers have the cultural background, and in a more limited way, as their parents have moved from place to place, they have the missionaries' children's broader contacts.

But in addition to that, all of them have had the advantage of struggle. They have not been steeped in luxury. They know what it is to want and to aspire. Within them has been the urge to have the culture of their parents, and this urge has been their mainspring of action. To be born in the home of wealth without culture is somewhat of a handicap. Many years ago Washington Gladden investigated the origin of the leading business men of Springfield, Massachusetts, where he was a pastor, and he found that ninety-five out of every hundred had come from the farm, and had been taught to work. In speaking of it before a public audience, he remarked, "Don't be discouraged, sons of rich men; there are five chances out of a hundred that you will succeed." To be born in a home of culture and of wealth is also apt to be a handicap. Try as hard as they will, parents who are well endowed with this world's goods cannot impress the sense of responsibility upon their children. "We are all as lazy as we dare to be," said Emerson, "and we are all brave." Wealth, even in a cultural background, is a good deal of a handicap. But when culture and the need for struggle go together, there is the promise of real achievement. Happy is the boy or the girl who has such an inheritance. If we had the privilege to choose our own fathers, we could make no wiser choice than to choose a missionary, a professor, or a minister, or their equivalent in some other sphere of the social realm. This, at least, is the result of experience.

"BIRDS OF A FEATHER"

Senator Robinson of Indiana, who owes his presence in the Senate largely by reason of the temporary control which the Ku Klux Klan gained in his state a few years ago has recently proven to be quite an embarrassment and a liability to his Republican comrades in the Senate. In his zeal to turn the attention of the country away from those of his party who were connected with the oil scandals, he pounced upon Governor Smith of New York for appointing Mr. Sinclair a member of the Racing Commission of New York, intimating that doubtless the governor had obtained his reward from the great oil magnate. "Birds of a feather, flock together," said Senator Robinson. Governor Smith came back with a denial more heated than the situation demanded, which gave the Senator another opportunity to come back at the governor.

It was noticeable that none of Senator Robinson's Republican colleagues followed in his train. Whereupon Senator Pat Harrison of Mississippi took him in hand. He called attention to the fact that his first appointment came from a governor who was saved from the penitentiary only by the statute of limitations. "Birds of a feather flock together," said Senator Harrison. He had been supported in his candidacy for senator by D. C. Stephenson, who has gone to the penitentiary for life for an unspeakable crime. "Birds of a feather flock together," said Senator Harrison. The mayor of Indianapolis, who had been charged with malfeasance in office employed Senator Robinson as counsel. "Birds of a feather flock together," said Senator Harrison. So it went on.

Still Senator Robinson was not squelched. Again he came back, only to be met by Senator Tydings of Maryland, a quiet urbane man whom he charged with lying. Then there was a danger of fistfights. Finally the Republican colleagues of Senator Robinson took a hand, and told him he was not the spokesman for the Republicans of the Senate, that they had better men for that job than he. It is such type of men that are brought to the surface when some proscriptive or impractical group of men succeed for a time in controlling the electorate. This was the case of the Know-nothing movement in the middle of the last century. It was the case when the Populists swept the middle West in the '90's.

We are not averse to upsetting party bosses from time to time, but it should be done by men of character, of judgment and discrimination, and of conscience.

LEARNING TO DRIVE

An Ohio woman the other day set out to learn how to drive a new auto her brother had just bought. She made her attempt on a crowded street, but since she cruised along at ten miles an hour everything seemed safe enough.

Presently, however, she got in front of a street car. The motorman clanged his bell; in a hurried effort to get out of the way, the woman accidentally pressed hard on the accelerator. Her car shot across the curb, crashed into the side of a house and killed three small children.

You may make your own comment on that. We hardly desire to print the language adequate to describe our opinion of one who attempts to learn to drive on a crowded street.

SENATOR FESS AND THE KEY NOTE

Simeon D. Fess of Ohio will sound the key note at the national Republican Convention as temporary chairman. No finer selection could possibly have been made. Senator Fess is an able, talented man. He is not only a student but a scholar and he always bases his actions in the senate or elsewhere on the soundest reasoning. He is thoroughly loyal to the administration, believes in its policies, and can defend them second to no man in the Republican party. Not only is this so, but in the midst of the exposures, Senator Fess in his own personality stands out as a pure beacon light; he has never been touched with the taint of the faintest rumor concerning anything which was venal or corrupt. Whatever attitudes Senator Fess has taken upon matters of public policy, he has taken them for adequate and conscientious reasons. A man such as that will be able to utter the proper sentiments that shall satisfy a patriot whether he be a Republican or a Democrat.

Senator Fess is a man who knows that corruption is not partisan; it knows no party lines, and the only reason why it seems there is more corruption in one party than another is because the Judas Iscariots always use the particular party that is in power whether it be Republican or Democratic, and in the past several years the Republican party has been the one in power. We will look forward with anticipation and confidence to this address. The selection of Senator Fess was a choice well made.

THE ROOT OF CHICAGO'S TROUBLE

Judge James H. Wickerson in Chicago has declared that he may, as United States Judge, be called upon to guarantee Chicago the right to franchise. If he does, the Federal troops will have to back it up. They will have to back up not only the right to vote, but also will have to use force probably to prevent some people from exercising the right more than once.

After all, voting is a mere incident in the life of Chicago. Getting through the election will by no means solve her problems; it lies deeper than that. There are no candidates as far as we know whose election will guarantee to Chicago any better government than she now has. Troops may guard ballot boxes and prevent riots and murders, but they do not affect the real component parts of society—the individual units that make up that electorate; this can only come from education.

"SICK BUT SATISFACTORY"

The news comes out of New York that Chauncey Depew is ill in bed with a bronchial cold, but his condition is "satisfactory." No one could appreciate the humor of this more keenly than Senator Depew. To have his condition announced as "sick but satisfactory," would be a joy to him and would probably remind him of the story of the man who, on reaching his office, was told that his enemy was sick, and he replied, "Well, I hope it's nothing trivial."

The producers of the dirty play in Los Angeles proposed to the court that they might change it and have it witnessed by city officials. The proposition was rejected. The court could see no particular reason why the city officials should be forced to judge as to the degree of filth. It is to be hoped that they are not experts in that line.

OUR CHILDREN

JUSTIFYING YOUTH

An anxious high school boy asks me "Is youth justified by modern living?" Of course. Modern youth is busy and that in itself is sufficient justification. Youth is in school and college and factory and farm building the structure of life for the next generation. They are building motors and airplanes and planning bridges and reclaiming deserts and dreaming great dreams. They are reaching into a world their grandfathers and grandmothers never glimpsed. Youth needs no justification.

It is stylish just now to bewail youth's extravagance, its speed, its heedlessness. That is a habit as old as the race. Each generation bewails the degeneration of the next. But the race moves ahead at its steady pace.

When somebody sees a car full of young men shouting like mad and whizzing around a corner on two wheels, he shakes his head and mutters, "Twas not like that in the olden time, 'twas not like that at all," and he is wrong. It was just like that. We shouted and howled and went around corners just as fast as the contraption would take us. When a gay party lasts until morning somebody shakes his head and says, "The present generation goes to the dogs. When we were young we never stayed out after ten o'clock. We HAD to be home or tell why."

But you told why, didn't you? And some of the why you judiciously kept to yourself. There is another old song that proves what I say. You could hear it ringing out on the still night many a time and oft if you had ears to hear, when we were young "We won't go home until morning, we won't go home until morning," etc. Ever sing that? And why?

Youth is not called on to justify itself. That is the duty of age. Youth is a stranger to life, experimenting with the materials that age has provided. If now and then youth smiles in superiority and tosses aside some of what was called good in the old day, what of it? If youth finds a better good is not that its justification. Shall it not try?

And when or where are we to separate youth and age and say, "For this you are held to account, and for this, you?" At the dance hall? I watched a party dancing the other night and counted five youthful dancers to fifteen mature ones. I saw more painted faces wearing wrinkles than I saw wearing the smooth cheeks of youth.

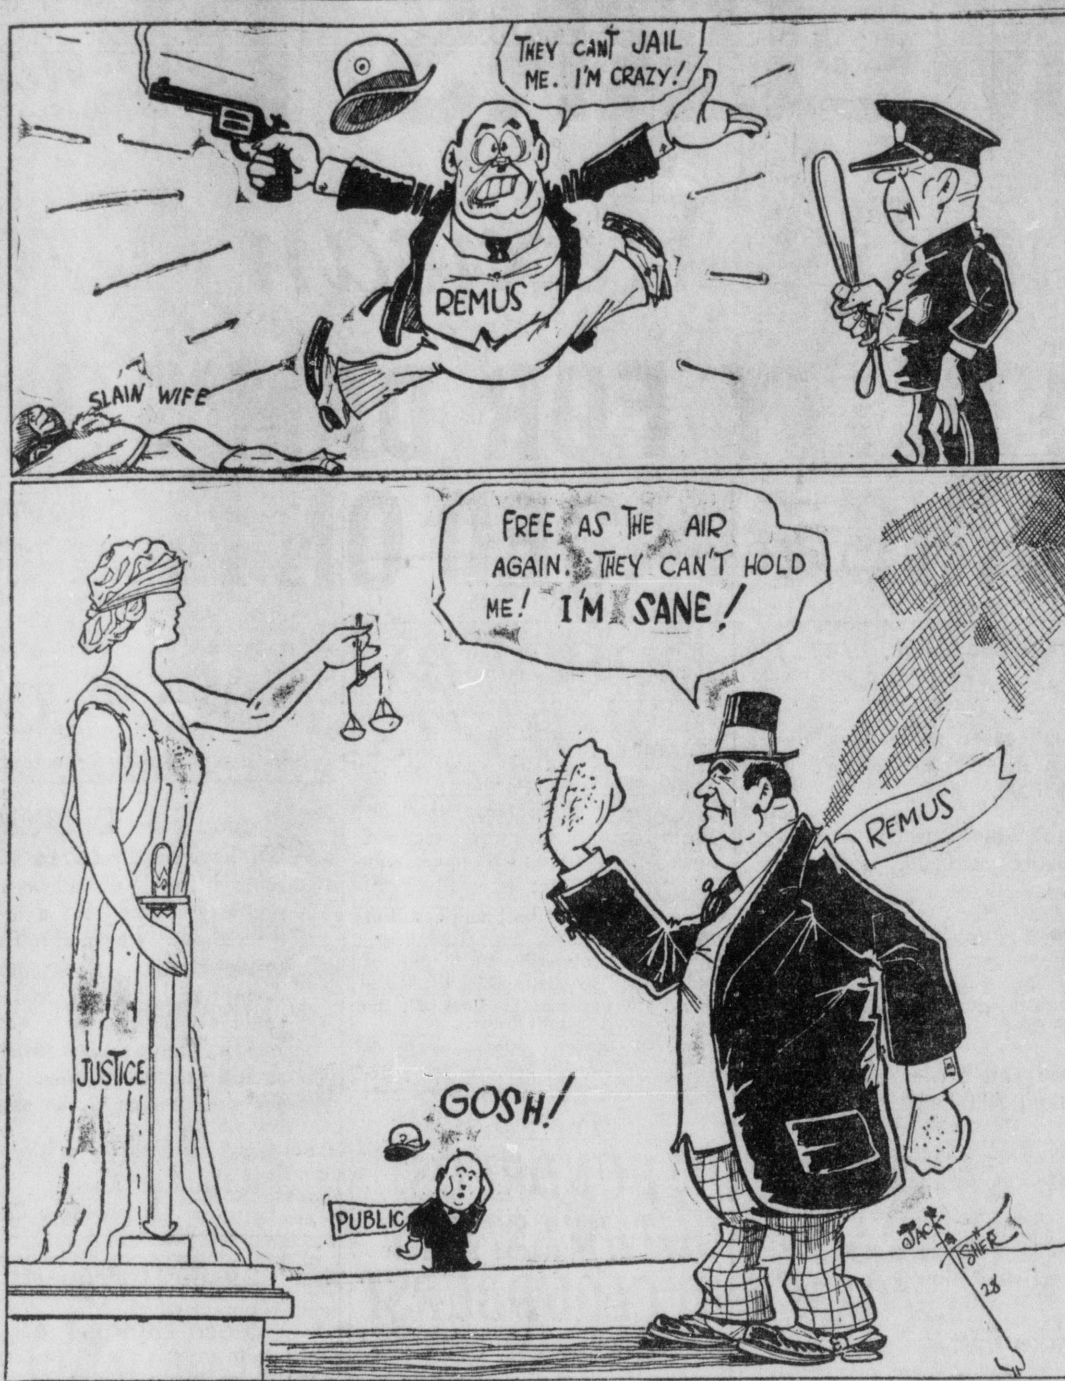

Is it at work Youth is to justify itself? A boy flew across the world and back again. A girl of eighteen heads a great business corporation because she knows more about it than anybody else. A young man still in his twenties edits a great magazine.

No, my children, it is age that must justify itself. Youth needs no justification.

Mr. Patri will give personal attention to inquiries from parents and school teachers on the care and development of children. Write him in care of this paper, enclosing stamped, addressed envelope for reply.

An American Travesty

More Truth Than Poetry
By James J. Montague

HARD LUCK

If Tommy just could have one wish;
He's sure that he would be
A little fluttery flying fish
That skims above the sea,
That dives through wave on rolling wave
And sleeps in creamy foam
And never has to toil and slave
O'er lesson books at home.

If Tommy had transparent wings
He'd swim in wide encircling rings
Around the great sperm whale
And if the whale began to spout
When he was roused to wrath,
He'd light upon the monster's snout
And take a shower bath.

And when a shark, turned upside down,
Came rushing round the place
A fierce and terrifying frown
Upon his evil face,
In vain his wicked teeth he'd gnash,
In vain he'd roll his eyes,
For Tommy with a graceful dash
Would soar up toward the skies.

But Tommy may not have his wish.
For wishes won't come true;
He cannot be a flying fish
And skim the waters blue,
He may not sail in glorious joy
Above the snowy foam
For he is just a little boy
And has to live at home.

Dr. Crane's Friendly Talk

By Dr. Frank Crane

THE PUBLICITY MANIA

Like the desire for strong drink the craving for publicity seems to be in our blood. It does not seem to make much difference what it is all about or for what you are famous, just so long as your name is mentioned on the front page of the newspaper.

Manufacturers of publisher's blurb to print on the outside cover of a book and press agents for operatic stars and famous actors say that it does not make much difference what people say about you; the damning thing is for them to say nothing at all. Just so long as you are mentioned, whether it be for having your jewels stolen, or getting mixed up in a divorce suit, or breaking your leg, or beating up your wife, or anything, so long as people will talk about it.

This desire is so strong in some people that they are willing to sacrifice their life or their virtue or their reputation or anything they may have, just so long as they may be noticed.

This seems to be a reverse operation of the force that makes us have stage fright. There the attention of the multitude makes us sick at the stomach, but in this case attention gives us a desired thrill. Like alcohol, it makes some people sick and some hilarious.

The case of the notorious Hickman, the California murderer, is in point. It, after his apprehension, he had been plunged into obscurity and there given his punishment it would have been proper.

On the contrary his capture only seemed to bring him into the limelight. He was taken to Los Angeles, famous lawyers quarreled over him, and the most noted writers were employed by newspapers to describe his most minute actions during the trial. People crowded into the court room to see him.

His trial was like the opening night at a movie show. All the celebrities were there. Great movie stars, famous writers, noted jurists and many others of great reputation could be found among the spectators.

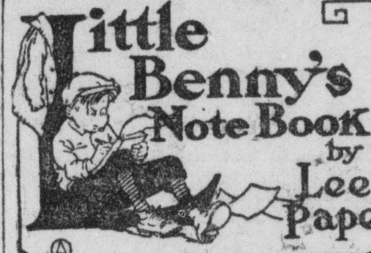

Hickman himself seemed to revel in the notice given him. He had a speech read before the jury which was a most maudlin appeal to sentiment.

About the same time in the newspapers we read of the success of Grace Moore in New York, who had triumphed as a singer in the Metropolitan Opera. But the efforts of this prima donna were no more rewarded by publicity than the crimes of Hickman.

Of course we don't want secret trials. They open the way to too much abuse. But there ought to be a way by which one who has committed a great crime can be tried and receive his just reward without such extraordinary publicity.

COOKING

Some people will eat anything if its bin cooked first, while others won't hardly eat anything, especially spinach.

Cooking makes things tender, the main exception being hard boiled eggs.

Bolling things kills the germs in them, and even if it don't it properly makes them very uncomfortable.

Gerls go to cooking skool to learn how to cook, the result being they all know how to make fudge.

Some of the best smells there is come from things on the stove cooking, the principal exception being when something starts to burn while the persin that's cooking it is looking in the cookbook to see what to do next. Other principal exceptions are cabbage and fethers being singed off of chickens.

No matter how many tables and waiters a restaurant has, homemade food always tastes the best, especially in somebody elses house.

The most unpopular part of cooking is washing the dishes, properly being one reason why cooks generally have bad dispositions and walk around tawking mad to themselves.

One of the best smells that can come out of a house is the smell of cakes or pies baking, making you glad when you smell them coming out of your own house and sad if you smell them coming out of somebody elses house.

In the Long Ago
14 Years Ago Today
From the Register Files

April 4, 1914

At a meeting of the Santa Ana Chamber of Commerce it was decided that 20 members of that organization, accompanied by local and Los Angeles newspaper men, would make a trip to the top of Santiago peak. L. L. Shaw and George Smith were appointed to make arrangements for the excursion, to take place some time in May.

A daughter was born March 31, 1914, to Mr. and Mrs. William Jeffrey of the San Joaquin ranch. Miss Etta Conkle, a graduate of the Santa Ana high school, who is a student at the University of California was elected to Al Chemia, the chemistry honor society.

S. W. Odell, president of the California "dry" association, spoke at the first meeting of the dry campaigners which was held in Santa Ana at the United Presbyterian church.

The Redlands university baseball team defeated the Poly nine, 8 to 2, in a game played on the local diamond.

Thoughts On Modern Life

By Glenn Frank

PROFITS AND POLITICS

I do not care to join that troublesome sect of critics who seek to run the government from the sidelines.

In a different problem of foreign policy, only the man on the inside knows all the facts.

Even a man on the sidelines may, however, venture an observation on an obvious but often overlooked aspect of the bothersome business of our Mexican relations.

I want to call attention to the position that the foreign investor is often tempted to take in the discussion of our Mexican relations, and the position it seems to me his own best interests suggest that he should take.

It is frequently assumed that the material interests of foreign business men who have investments in Mexico force them to fight, in self-defense, against the coming of a liberal and democratic regime in Mexico.

On the contrary, the fact is, I think, that liberal politics in Mexico is the best guaranty of liberal profits for the foreign investor in the long run.

In dealing with a smaller nation, rich in undeveloped resources, there is always the temptation to sacrifice the permanent advantages of a long future for the quick profits of the immediate hour.

It should be plain by now that

no artificial advantage gained by winning over this or that Mexican president to the side of the foreign investor can be permanent.

A permanently peaceful and prosperous Mexico is the only Mexico that can prove permanently profitable to the legitimate foreign investor.

Any Mexican policy that does not make for a permanent settlement of the internal Mexican situation is not only poor statesmanship, but bad business, regardless of the immediate concessions it might obtain.

Every time political reaction has triumphed in Mexico, every time political liberalism has fallen in Mexico, it has proved in the long run to have been bad business for the foreign investor.

If the foreign investor opposes an honest effort to liberalize Mexican political policy, it is not intelligent self-interest, but muddled thinking that dictates his opposition.

Tomorrow the foreign investors in Mexico could induce the Mexican government to hand them a blank check to be filled in by their maximum immediate desires, it would be the worst thing that could happen to the foreign investors, for it would set the feet on Mexico once again on the road of revolution.

A Chicago Judge On
The Subject of Crime

Sacramento Bee

Judge Marcus Kavanagh of Chicago has published a book on the subject of crime, and some of its statements are attracting much attention.

One surprising thing it states is that there are not more than 350,000 persons in the United States who make a living wholly or partly by crime.

That is but a small fraction of 1 per cent of the total population of 120,000,000, yet the judge says the criminal elements he mentions were responsible for 12,000 murders last year; also robberies and thefts more than enough to repay the cost of the Panama Canal.

Among the causes for crime the jurist finds chiefly to be condemned are these:

Public apathy, quibbling courts of review, antiquated legal procedure, new processes designed to protect the criminal rather than the public, and unscrupulous lawyers.

The judge, however, seems to have found no other remedy to suggest for the prevalence of crime than a return to the lash.

And if the causes he mentions, as above quoted, are chiefly or largely responsible for crime, in what way could return to the lash effect a cure?

That, of course, could have no application to the faults of the courts or to reformation of "unscrupulous lawyers."

The Italian Tyranny

Fresno Morning Republican

The extent of the state tyranny established by Benito Mussolini as dictator of Italy is almost incomprehensible to an American. No dream of "socialist paternalism," is any stronger, in theory, than Mussolini is putting into practical effect. The Bolsheviks in Russia have had in practice nothing like the effectiveness of the universal control established by this one man in the name of the state government.

All organized society, the churches, civic organizations, social institutions, have been put into the iron rule of the fascist politicians.

Imagine what it would be like if in California the governor should give orders directing all Boy Scouts, all Young Men's Christian association units, all the activities

of the Woodmen and the Kiwanis as well as the chambers of commerce and the merchants' association and the labor councils to be under the daily direction of the state authority. That is a picture of Italy.

What the people of Italy think of it, we do not know. For no one can send any word out of what the people think. And any man who is suspected of disagreeing with the government is given a chance to get out of the country. The duke has done his work well.

Reports have it that the king is tired of being a puppet, and may resign. But that is mere imagination. It may be true, or false. The king himself has regard for his person. And so far, at least, he is getting his annual allowance from the national treasury, a heavy one.

Selfish Drivers

Imperial Valley Press

A group of Californians has organized a "National Golden Rule Highway Plan," seeking to enroll motorists who will agree always to conduct themselves, while driving, according to the Golden Rule.

It's a good idea, and if all motorists would live up to the famous precept life would be a lot sweeter. But here's the one trouble. The vast majority of drivers is

composed of decent, kindly men who are always considerate and courteous to pedestrians or other drivers. There are only a few, relatively, who plow through traffic without considering the other fellow. But these few are just the chaps you never can get in any Golden Rule association. They're the chaps that make stringent traffic laws, and sharp-eyed motorcycle patrolmen, necessary.

Time to Smile

SHE WAS READY

The Browns were expecting a visit from their pastor. It was the custom of the latter to ask small children three questions—their name, age, and, to test their knowledge of right and wrong, where had little children went. Little Mary Brown had received full instructions from her parents and was quite ready to answer the questions.

The minister arrived and asked: "What's your name, little girl?" Mary was ready to display her intelligence; "Mary, sir; five years old; go to hell."—Tit-Bits.
